## Driving Lessons

There's no minimum number of lessons you must have or hours you must practise driving, but the Driving Standards Agency states that on average a driver will require around 45 hours of tuition plus 22 hours private practice to stand the best chance of passing their driving test. Lessons should, wherever possible, be regular – one or two a week is ideal.

How many lessons you need will depend on how quickly you learn. You can download a form to record your progress with your instructor.
