# *A Tradition of Service*

*Livermead House has been witness to many changes through time. Hospitality, high standards of service and a unique tranquility are maintained within this magnificent Hotel.*

# *A History of the Livermead House*

Torquay itself, came into being towards the end of the Napoleonic Wars. A haven for the off duty naval officers and their wives on leave from the long and arduous conflicts. During this period many of the early Victorian Villas sprang up to form Torquay, which became one of the favourite watering places of the well to do.

In 1820, the Reverend Roger Mallock of Cockington Hall, decided to build a house for his guests by the sea. During the mid to latter part of the last century, the hotel was a popular Victorian guest house. The Livermead was also used as a medical centre for the R.A.F personnel during the Second World War.

One of the Livermead's most famous visitors was the Victorian clergyman, naturalist and author of 'The Water Babies' ~ Charles Kingsley.
