How to use RevitaLash Eyelash Conditioner

Step 1:- Remove makeup and residue. Keep in mind, oil-based makeup removers and cleansers can leave behind a film which may create a barrier between your lashes and the lash conditioner. It's important to wash off any residue.

Step 2:- Apply a thin line of RevitaLash® Advanced Eyelash Conditioner directly to your eyelashes, above the lash line. It is not necessary to apply more frequently than once per day. Let dry completely before applying additional beauty products.

How To Use RevitaLash RevitaBrow Advanced Eyebrow Conditioner

Step 1:- Remove makeup and residue. Keep in mind, oil-based makeup removers and cleansers can leave behind a film which may create a barrier between your brows and the brow conditioner. It is important to wash off any residue.

Step 2:- Apply a few short strokes of RevitaBrow® Advanced onto each eyebrow. It is not necessary to apply more frequently than once per day. Let dry completely before applying additional beauty products.
