

At VNV Sounds, we have recently bought some excellent new staging equipment and it's been a big hit already! Over the past few months we have put together stages for launch parties, conferences, award shows and more!

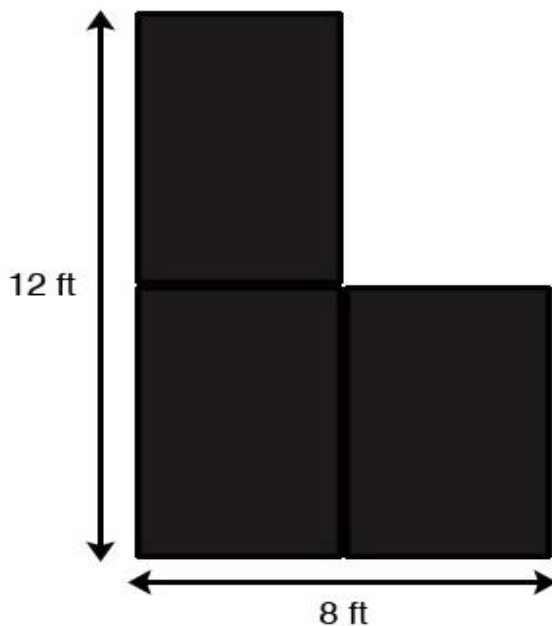

We have purchased several top quality heavy-duty aluminium decks in various sizes that makes us very flexible when it comes to hiring the right size and shape for an event.

We can also hire stages in various heights and colours of choice. So whether it's uncarpeted, red carpet or pink, purple or blue you can get the effect that's right for you.

Check out the following examples...

**Nando's, Kensal Rise – Branch Opening Party**

Stage: 12' x 8' L Shape, 300mm Risers, No Carpet.

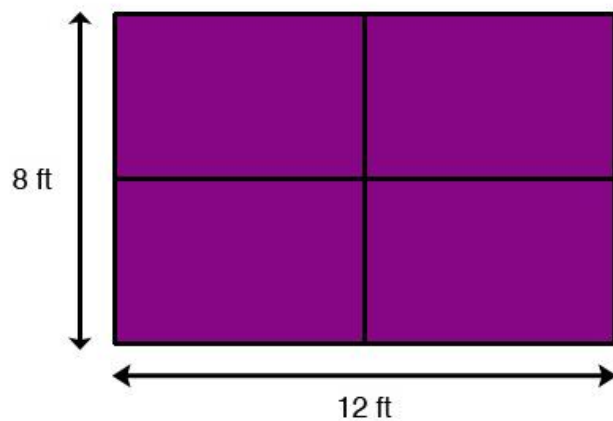

Branch opening party for Nando's where the special guest DJs included Norman Jay & Melody Kane. They needed to be raised off the ground to be in plain view of the audience on the dance floor in front of him.

VNV Sounds also provided the LED uplights, Black Starcloth DJ Booth & Speakers seen in this pic.

### **Positive Profile Awards 2013**

Stage: 12' x 8', 300mm Risers, Purple Carpet.

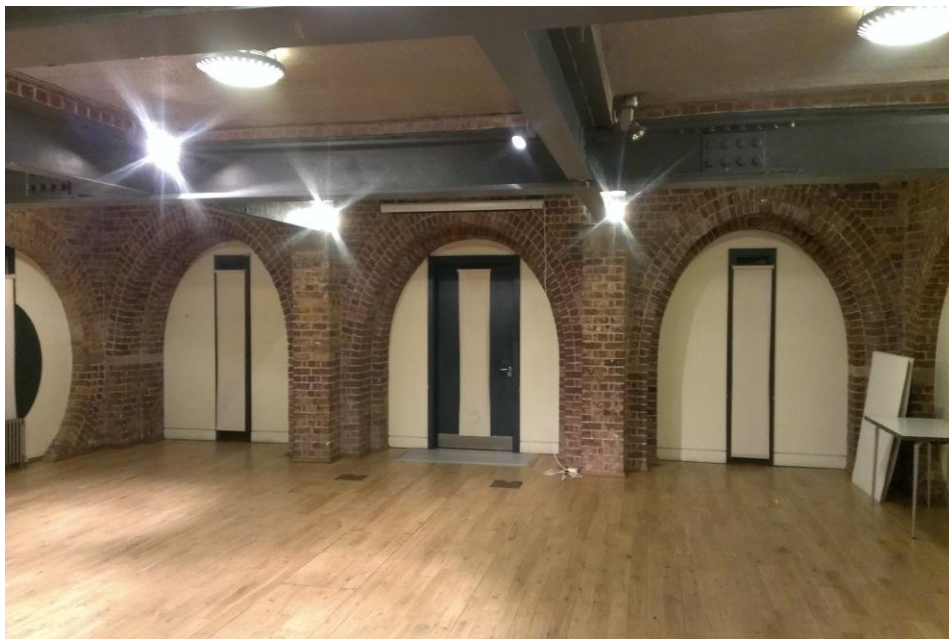

The Positive Profile Awards is a youth award show that acknowledges any young people under 25, living in Southwark, for their outstanding achievements. They needed a nice stage with purple carpet for the youth to step up on and collect their awards as well as a special perspex lectern, microphone, uplights, speakers and a nifty bit of draping.

See how we temporarily transformed the ambience of the room with the before and after pics below.
