How many lessons per month?

This is a flexible course, so you can take as many lessons as you like. It is recommended that you take one lesson per week (usually 4 lessons per month) to maintain progress. The Drum Pass provides the flexibility to take lessons to suit your schedule, whilst maintaining control of how much you want to spend.

Who is it for?

It is ideal for anyone learning drums as a hobby, or students wanting a flexible open-access course. Our unique approach to drum lessons is a combination of expert one-to-one tuition mixed with regular events, masterclasses and workshops for Members, with opportunities to take part in social activities with other people learning drums and other instruments.

Explain the 40% discount?

The normal full price of a one-to-one drum lesson for Non-members is £45. As a Member this is reduced to £30 per lesson. That's a saving of £15 off every single lesson. Additionally, every 10th lesson is FREE for Members. In other words, after 9 lessons you get the 10th free. This extra 10% discount is to reward your commitment to on-going lessons. It all adds up to a massive 40% discount!

How do I pay for it?

The £25 monthly membership is set up as a subscription or standing order so it goes out automatically on the same day each month. Lessons are then booked on a Pay-As-You-Go basis at £30 per session. This can be paid by cash, bank transfer, or mobile payment. Payment for each lesson is due on the day of the lesson. If preferred, you can optionally pay for any number of lessons at a time.
