

## **Environmental Policy**

Chris Pearsall Photography has been established for over 35 years and specialises in the provision of high quality photographic images for the corporate, creative and B2B market.

Chris Pearsall Photography is an environmentally conscious and responsible company. We are therefore committed to reducing our environmental impact in a sustainable manner.

To carry out this commitment, it is our policy to strive to ensure that all aspects of the business have the least harmful effect on the environment by:

- Being aware of all environmental legislation and ensuring that regulatory requirements are met and, where feasible, improved upon
- Monitoring the implementation of our environmental policy
- Expecting similar environmental standards from all suppliers and contractors
- Reducing waste through re-use and recycling of paper and other materials
- Purchasing recycled, recyclable or re-furnished products and materials where these alternatives are available, economical and suitable and as far as possible purchasing products and services that do the least damage to the environment and encouraging others to do the same
- Minimising energy and water usage, vehicle usage and minimising our consumption of natural resources, especially where they are non-renewable
- Operating and maintaining vehicles used for business purposes with due regard to environmental issues as far as reasonably practical and try to reduce travel by planning and doubling up journeys or using alternative means of transport where appropriate
- Assessing the environmental impact of any new processes or products we intend to introduce in advance
