## About Company

Catnect is a MD (Malaysia Digital) status, full-service digital agency based in Kuala Lumpur, Malaysia. In today's rapidly evolving business landscape, the ability to adapt and innovate is paramount. At Catnect, we don't just recognize this fact; we thrive on it. We are passionate architects of digital transformation, helping organizations worldwide harness the full power of technology to redefine their futures, by providing them with the tools, strategies, and expertise needed to thrive in the digital era.

We offer a wide array of comprehensive digital solutions, from Business Process Automation to Data Services & Cloud Integration, Software Testing, Custom Software Development, and beyond.

We are committed to:

**Innovation:** Continuously exploring emerging technologies to craft bespoke solutions that address unique business challenges and drive innovation.

**Partnership:** Forging strong, collaborative relationships with our clients, understanding their goals, and working together to achieve digital excellence.

**Expertise:** Leveraging our team's deep expertise in IT, data analytics, cloud computing, cybersecurity, and more to deliver transformative solutions.

**Agility:** Navigating the fast-paced digital landscape with agility, ensuring that our clients stay ahead of the curve and adapt to changing market conditions.

**Quality:** Maintaining the highest standards of quality in every project, ensuring that our solutions are reliable, scalable, and future-proof.

We take pride in our commitment to excellence and innovation. We tailor our solutions to meet the unique needs, aspirations, and challenges of each client. With a deep understanding of technology's potential, we empower businesses across diverse sectors, to transform and automate their operations.

Our vision is simple yet ambitious: to be at the forefront of the digital revolution and to contribute to the growth of industry 4.0 in Malaysia. We believe in the power of technology to transform businesses, and we're here to make that transformation a reality.

Our vision is to be at the forefront of this evolution, leading the way with groundbreaking digital transformation that make a meaningful difference in people’s lives”.

### Our Values

“Our core values focus on each Client. Integrity, ethics and compassion guide every interaction and define our service approach with our clients. We are committed to change the future through our efforts to create a world of Smart Solutions”.

# 3

## Our Services

Cathect offers a strong portfolio of services that are aligned and customised to suit your business objectives.

### 3.1 Software & Application Development

Cathect's custom software solution refers to a tailored and unique software application that is specifically designed, developed, and built to address the specific needs, challenges, and requirements of a particular individual, business, or organization. Unlike off-the-shelf software that offers generalized features, custom software is created from the ground up to provide a precise solution that aligns with the client's objectives and processes.

#### 3.1.1. Web Applications

Cathect provides full-stack innovative services for web application development for different sectors and corporate objectives, that can help improve organization's productivity and engagement, monitor and capture user activity, and automate repetitive and paper-based tasks. We develop web applications optimised for all web browsers and device types, including desktop, tablet, and mobile.

Our expert web app developers make use of advanced software engineering processes, like Angular JS, CSS, and HTML to build progressive web apps. From start to end, we implement the latest technology through the QA team, UI/UX designers, best web developers to create high quality, intuitive web apps with clean code and fast delivery.

#### 3.1.2. Mobile Applications

From front-end to back-end, from prototype to production, we specialize in creating engaging and highly functional mobile applications for a variety of industries. Our mobile app developers with expertise in developing outstanding mobile apps for iphone and android, uses the best practices in modern mobile development, up-to-date and innovative approaches, techniques and architectures that allow us to build beautiful and user-friendly apps that can also help organizations to drive their business to the next level. We use the latest cross platform technologies to ensure that your business is right in the middle of your palm.

## 3.2 Database Services

we specialize in helping businesses transform their data into actionable insights. Our customized solutions can help businesses streamline data management and optimize data analysis for better decision-making.

### 3.2.1. Cloud Integration

Cathect's Cloud Integration connects different applications, systems, or services located in the cloud to enable seamless data exchange and functionality. It involves integrating cloud-based resources with existing on-premises or cloud-based systems to create a unified and interconnected environment.

Cloud integration allows organizations to leverage the benefits of cloud computing while maintaining the interoperability of their existing infrastructure. It enables data sharing, communication, and collaboration between diverse applications and services, regardless of their location or underlying technology.

There are several key aspects and approaches to cloud integration which include Data Integration, Application Integration, APIs and Web Services, Hybrid Integration and Platforms Integration.

Benefits of Cloud Integration: Scalability, Flexibility, Cost-Effectiveness, Improved Collaboration, Agility and Innovation.

### 3.2.2. Cloud Services

We have a range of services that ensure an organization's cloud transition is delivered on time and on budget. Our next generation solution deployment options also allow our customers to run their applications across providers turning cloud itself into an easily consumable commodity. We partner with leading cloud and container vendors to deliver your solution, including Amazon Web Services, Microsoft Azure, Google Cloud Platform (GCP), Open Stack, VMWare Cloud and Docker. Partnering with all providers allows us to offer customised, tailored offerings with the best configuration to suit any business.

### **3.2.3. Database Management**

Cathect's Database Management services ensures your business is in control of activities and processes involved in the administration, organization, and maintenance of databases within an organization. It encompasses the tasks of creating, configuring, securing, monitoring, and optimizing databases to ensure data integrity, availability, and performance.

our pool of experts are capable of deployment, management and maintenance of database and applications for your organization.

Here are some key aspects and activities of database management:

- **Database Design**
- **Data Modelling**
- **Database Creation and Configuration**
- **Data Security and Access Control**
- **Data Storage and Optimization**
- **Data Backup and Recovery**
- **Database Monitoring and Performance Tuning**
- **Database Maintenance and Upgrades**
- **Data Integration and ETL (Extract, Transform & Load)**
- **Database Documentation and Metadata Management**

### **3.2.4. Data Engineering**

At Cathect, we have deep expertise in all aspects of data engineering services. We can help you with everything from collecting data to organizing it, storing it, and using it for analysis.

Our Comprehensive Data Engineering Services & Solutions include:

- **Big Data Processing**
- **Real-Time Data Streaming**
- **Data Lake Implementation**
- **Data Transformation & Modeling**
- **Data Visualization & Reporting**

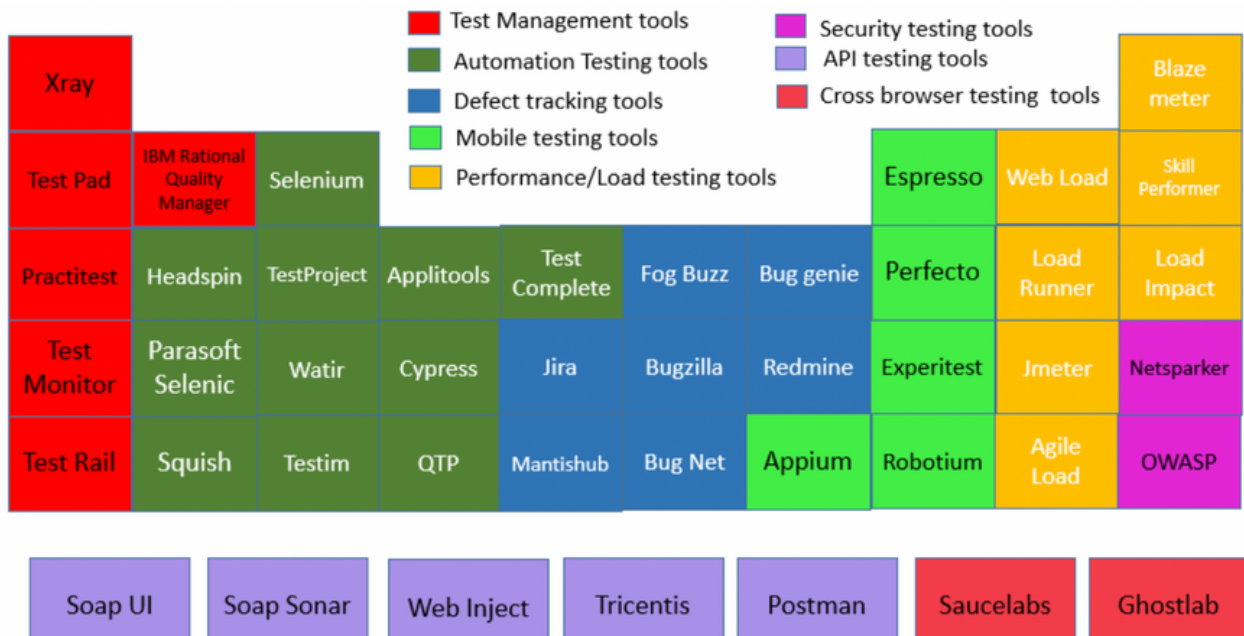

## 3.3 QA & Software Testing

Our Quality Assurance (QA) and Software Testing (Software Testing) services are two of the many vital service categories that we provide.

We offer a full range of on-demand multiple testing and QA services that span industries, which aim to cater to varied needs. Our services ensure your products are primed for user deployment. Our services encompass many different software quality activities such as: quality assurance, functional and regression testing, mobile testing, performance testing, load testing, browser and hardware compatibility testing, acceptance testing, automated & semi-automated testing, business process testing, security testing, and code reviews.

After studying critical business functions in the software and keeping client's requirements in mind, we design a testing architecture to best suit their needs.

### Software Testing Tools We Use

Delivering a defect-free product in quick time is what the market demands these days. Even one little flaw can result in a setback for companies. While this fact was overlooked earlier, entrepreneurs are now making it a priority. Efficient software testing ensures that all defects in the software solution are identified and fixed before it gets released.

## 3.4 IT Consultancy & Support Services

Cathect offers a full range of IT consulting services to help analyze your business requirements for effective implementation of solutions.

### 3.4.1. Manages IT Services

Our first-class managed IT support services are aimed at helping small, medium and large organizations cope with day-to-day ICT activities within the organization in order to save money, time, and effectively manage their ICT resources and investment. Our agile approach to IT guides the team to achieve the best work within the specified timeframe in a competitive environment.

Together with you, we determine the type and scope of the services you need: you book exactly the services you need and for as long as you need them. With our all-inclusive offer, you have a single point of contact for all your IT concerns - but still retain full control over your IT infrastructure and processes.

- Reliable support for parts of your IT or
- Complete support for your IT “all inclusive”
- Strategy consulting and innovation
- Maximum IT security
- Service Level Agreements

### 3.4.2. 24/7 Helpdesk

From the classic user helpdesk for end users to sophisticated 2nd and 3rd level support, we cover all customer requirements and can therefore guarantee complete support for your entire IT including all IT processes. Our IT support department can cover almost any specialist area at any time.

Cathect's 24/7 Helpdesk at a glance:

- 24/7/365 on-call service
- Single point of contact
- Guaranteed response times
- 1st, 2nd & 3rd level support
- On-site or remote support

# 4
