More About TV Aerials Middlesbrough

Should you require a new TV aerial or Satellite dish installation or advise on Sky Q, Sky Digital, Freeview or Freesat we are more than happy to help you. We also offer a TV wall mounting service, phone line repairs and installation, designing and installing bespoke commercial TV systems for business premises, installation of CCTV systems and we aim to do it all professionally, efficiently and at the most competitive prices.

TV Aerials Middlesbrough have been installing TV Aerials and Satellite Dishes to customers for over 20 years. Through training and qualifications we have acquired the knowledge and experience necessary to deliver a first class service to all our customers. All of our technicians have also been trained to work at heights and they are accredited. They all carry identification for your peace of mind, and a courtesy call is given to let you know when they are due to arrive at your property.

Please continue to read more about our variety of services that you could benefit from and help you decide why you should use TV Aerials Middlesbrough for your aerial and satellite needs.

Need help or advise? Please call us today on 01325506112 we are more than happy to receive your call and book you an appointment.

Satellite Dish Installers Middlesbrough

TV Aerials Middlesbrough are also trained to supply, fit and install satellite systems to receive foreign channels/programs.

On the day of your appointment, the engineers provide a 30 minute courtesy call before they are due to arrive, this provides an ETA for the customer. Upon arrival, the satellite engineer will advise you on the best place for your satellite dish to be situated.

An average appointment to supply, fit and install a dish should last no longer than an hour.

Once your dish and box are set up, the engineer will provide you with a demonstration on how to use your new equipment, including how to get Catch Up TV, how to record as well as how to pause and rewind live TV if available.

Satellites such as Hotbird, Astra, and Eutelsat broadcast a wide range of Polish, French, Spanish, Russian, Italian, German, Arabic Albanian, Romanian and Bulgarian channels.

Turkish channels can be received by aligning a dish to Turksat or Digiturk whilst Greek programs are available on Hellas Sat.

Contact Us today to learn more about satellite Installations by TV Aerials Middlesbrough.

TV Wall Bracket Installers Middlesbrough

At TV Aerials Middlesbrough we install the latest in TV Wall Brackets and our trained engineers aim to be there within 24 hours to erect your amazing new TV. Most customers who purchase a new TV, plasma or 3D television want to take pride of place in their living room so we aim to book our engineers as soon as possible. Perhaps you have purchased a flat screen television for a games room or one of your kids bedrooms, we are happy to attend and get the job done.

As well as supplying TV aerials and Satellite dishes, we also supply, fit and install a variety of TV Wall Brackets. A flush, fixed or flat wall bracket is perfect for a large TV. Tilting, swivel brackets are great if you need your television tilted to your sitting position, or if it is positioned in a corner and needs pulling out in order to watch it, in this instance an articulated wall bracket would give you the maximum flexibility with its flexible arm.

Where ever your new television is going within your home, be it the lounge, kitchen or bedroom, we will wall mount it for you. Cables can be discreetly hidden and we will position your TV in the perfect viewing location to suit you and your family. We try to offer a same day service, use professional engineers, and offer great prices. Get in touch with TV Aerials Middlesbrough today on 07834549340 to learn more about how we can help you mount your brand new television.

Communal Satellite Systems Middlesbrough

Communal Satellite Systems are planned out and installed in a completely different way to a residential/domestic aerial or satellite system. Our senior engineer at TV Aerials Middlesbrough has over 15 years of experience within the communal systems industry. One aerial is to be able to be service by 10's, 100's or 1000's of people on the same communal system, all with perfect pictures, acting as their own aerial, it simply needs to be matched up, balanced and made safe.

When planning an IRS system and designing the aerial and satellite system you must ensure that the system is built with the ability to receive digital SKYQ, CCTV and European and Asian TV Channels. With most TV aerial transmitters eventually being switched over to SKYQ digital (some have already gone Q digital) then it is important to future proof communal systems, therefore you MUST make allowances for this in any design.

For More Information On Communal SKY Systems Visit [Here Now](#).

HDMI Multi room Distribution

HDMI multi Room Distribution Systems Installed by TV Aerials Middlesbrough are nothing less than amazing, our products enable you create any size of 4K or 1080p HDMI matrix using a 1 Gb network and Cat 5e/6 cabling, they can be implemented within residential or commercial premises across Middlesbrough. Any combination of inputs and outputs is possible, and the system can be easily expanded to accommodate additional sources and screens throughout your Home or Office.

TV Aerials Middlesbrough is an audio visual industries award winning option for advanced HDMI distribution. Our products have been designed and engineered by a global team of AV specialists with over 25 years of experience. Recent research highlighted the need in the market for an AV distribution brand that could deliver both industry leading performance and most importantly reliability. This has resulted in us developing a range of HDTV Distribution of 4K, Video over IP and HDMI solutions that deliver seamless AV integration within any installation environment. As an official HDBaseT adopter and alliance member, Blu-stream is firmly positioned at the forefront of this advanced technology. Through integration of the latest pioneering chip sets our TV Aerial Middlesbrough based engineers have trained in the latest developments in the world's most innovative range of AV distribution products.

TV Aerials Middlesbrough 4K TV Systems allow you to distribute all your video sources such as Sky, Virgin Media, Blu-ray, Apple TV and your HD games consoles to any television in your home. Using this technology you can also control the devices from every location using a remote control or an app on your smartphone or Ipad. For example: you can start watching a film in the living room, pause it then move to the bedroom and watch

the end from the comfort of your bed. Maybe you want to relax on the sofa after banishing the kids to another room with a TV, orr distribute one video device to multiple TV's around the home at the same time. The options are endless with our HDMI Multi Room Distribution Systems.

Visit our Sonos Page to experience the full range of the Sonos multi-room system and talk to us about what we can do for your Smart Home project.

Sound Bar Installation Middlesbrough

What is a Soundbar? This is one of the most common questions that TV Aerials Middlesbrough is often asked. A sound bar is the easiest way to improve your TV sound without adding a full 5.1 surround sound cinema system. A soundbar provides an excellent alternative to a home cinema system as many properties dont have the space for them.

Soundbars are also extremely easy to set-up and can be configured with pretty much any Modern Flat Screen TV on the market. With wireless sub woofers, wireless Bluetooth music streaming, Network Access, HDMI & Optical connections, there's a something for everyone.

Modern TV's now use flat-panel technology which allows the enclosure of the TV to be incredibly thin compared to the old 'tube' TV's of yesterday. From their stylish looks and room friendliness, Flat screen TV's are a huge improvement with just one drawback.....They have poor sound quality!

By adding a Soundbar, or add-on speaker system, you can dramatically increase the quality of your sound to a degree where it is equally as good as the TV picture quality itself. To upgrade the TV at any time, simply keep your sound bar and use it with your new TV, the correct audio outputs are required, these are now standard on all modern televisions.

★★★★★ Mar 28, 2018 by Matthew Donnelly on TV Aerials Middlesbrough

GREAT WORK

I didnt personally meet the engineer at TV Aerials Middlesbrough, but the work done was great and my wife said he was very polite and cleaned up after himself.

★★★★★ Mar 28, 2018 by Megan Ledger on TV Aerials Middlesbrough

TV Aerial Extension

Thanks Gary for another great job. I originally had Gary out to install my aerial in the living room, just had him back out to put an extension in my bedroom. Always a pleasure to have a polite workman in the house.

★★★★★ Mar 28, 2018 by Adam Smith on TV Aerials Middlesbrough

10 AERIAL INSTALLATIONS

As a builder i always look for other local businesses to work with. I have just built 10 new homes and they all needed aerial installations. I have used Gary for the last 11 years and i wouldn't use anyone else. Good lad, honest and reliable.

★★★★★ Mar 28, 2018 by Jamie Wilkinson on TV Aerials Middlesbrough

Aerial & CCTV Installation

I got Gary out to sort my TV out after my neighbour cut my cables... he fixed them and it was a job well done. He informed me he also did CCTV, i had been getting quotes already. I let Gary do it as his knowledge on the all systems were great and he gave me different options not just going in at a high price. He is a good hard working lad and i will be passing his details on to others.

★★★★★ Mar 28, 2018 by Sophie Franklin on TV Aerials Middlesbrough

TV Aerial Fault

Thanks for fixing my TV Problems.

★★★★★ Mar 28, 2018 by Becky Hopkins on TV Aerials Middlesbrough

HIGHLY RECOMMENDED

Very polite, cleaned up after himself, all round good job and i will recommend.

★★★★★ Mar 28, 2018 by Faye Donnelly on TV Aerials Middlesbrough

THANK YOU THANK YOU THANK YOU

All my TV's lost signal... I knew the kids would go mad when they came home from school. I called Gary and he came out the same even tho he was busy. Aerial was all sorted before the kids came home from school. THANK YOU!!!

★★★★★ Mar 28, 2018 by Karl Thomas on TV Aerials Middlesbrough

EXCELLENT WORK

Thanks Gary, i didn't really now what work i needed but your knowledge on all things technical was great. Very happy with the installation.

★★★★★ Mar 28, 2018 by Eileen Fenton on TV Aerials Middlesbrough

Job Well Done.

Good work from TV Aerials Middlesbrough today fitting my new TV Aerial.

★★★★★ Mar 28, 2018 by Tim Clarke on TV Aerials Middlesbrough

RELIABLE & HONEST!

I had 2 companies out previous to Gary telling me i needed a new aerial and quoting over £150 for just a replacement aerial. I got Gary to come and have a look it was just a faulty cable i didn't need a full replacement like the other companies said i did and even if i did need one Gary's were not priced no where near as high as that!! Will be recommending you.
