RHINOPLASTY

What is Rhinoplasty ?

Rhinoplasty also known as nose job or nose reshaping, Rhinoplasty is a surgery to restructure the nose. Rhinoplasty word comes from a Greek word 'Rhinos' which means nose and 'Plassein' means to shape. Also referred to as Nose Job, it is one of the most popularly known and widely practiced plastic surgery in India.

Who Needs It? / Candidature For Rhinoplasty / Who is the best candidate for Rhinoplasty ?

Every surgical procedure including plastic or cosmetic surgery involves certain risks. You should undergo a Rhinoplasty only if you have a medical requirement or you feel that the particular surgery will enhance your quality of life.

You shall be a good candidate for the Rhinoplasty if you are healthy, you have realistic expectations from the outcome of the surgery and you are aware of all the risks associated with the procedure.

You cannot consider undergoing a cosmetic surgery if you have serious health issues like diabetes, heart diseases, high blood pressure, bleeding disorders like haemophilia or depression.

You shall not be a good candidate for the Rhinoplasty if you smoke or drink too much alcohol.

Conditions/ Reasons You Might Need a Rhinoplasty

Generally, people who go for rhinoplasty are dissatisfied with their nose appearance and wish to improve the structure and aesthetic appearance. A lower percentage of rhinoplasty are patients who suffer from discomfort or breathing disorders due to improper structures or may have faced some nose injuries. A large percentage of candidates for rhinoplasty are in good health and are aware of the risks which come with surgery and have practical assumptions regarding the surgical outcomes.

People may have :

 Aesthetic Reasons

 Medical Reasons

Aesthetic Appearance or Unsatisfactory aesthetic appearance (disproportion)

People feel embarrassed or uncomfortable for multiple reasons. Cosmetic nasal surgery is safe and efficient. It is an ancient art that is been practiced for years. Rhinoplasty can be used to customize the shape and size and entire appearance of the nose.

PHYSICAL APPEARANCE:

Youthfulness

Ageing is a natural process which everyone goes through. Visible wrinkles, fine lines, blemishes are signs of ageing. Such skin flaws makes you look tired or aged. But with Rhinoplasty like suitable treatment one feels younger, healthier and rejuvenated.

Natural

Nowadays Rhinoplasty is gaining immense popularity because it produce results that blend extremely well with a patient's facial aesthetics. Soon after the surgery, one gets back to the desired or normal shape of a treated body part. One does not have to wait long to see the result, which is the beauty of cosmetic surgery.

IMPROVED PHYSICAL HEALTH :

Some cosmetic surgery procedures have double advantage; it will improve physical health as well as your looks. For example, a rhinoplasty or nose job enhances the aesthetics of the nose and at the same time helps improve breathing and can potentially reduce sinus infections.

INCREASED CONFIDENCE AND ENHANCED MENTAL HEALTH:

Self Confidence is a tool that helps us face challenges and tackle problems in life, with great certainty. When you look good, you feel good which in turn increases your self confidence. It leads to greater willingness to try new things or open up in social situations. You become more willing and open to wearing certain clothes or participating in activities which you avoided prior to surgery, due to discomfort in your appearance.

Certain clinicians and psychologists feel, few corrections in your body parts, by cosmetic surgery can not only lead to emotional wellness but also enhanced mental health.

OTHER OPPORTUNITIES :

 Studies do suggest that people that are more attractive benefit in their personal as well as professional lives. Studies have also found, good looking people have a higher probability of getting promotions and making more salary.

A 2012 study published in Applied Financial Economics revealed that good looking real estate agents were able to sell properties at a higher price than agents that were average looking.
