## Questions and Answers

### **Q: How long do the batteries last?**

A: Bell Box - Up to 10 Years , PIR - Up to 2 years, Door/Window Contact - Up to 3 Years, Remote Control - Up to 3 years (all based on activity and use)

### **Q: I have been told that the UK does not get enough sunshine for Solar Bell Box's, and that they are no good for our climate, is this True?**

A: No this is not true, Solar in this case means Infra-Red Energy, for every day the Alarm Stores enough power for 30 days, the Bell Box only draws a small amount of voltage for the Flashing LED,s and the Solar Panel is rated to last 10 years + active life.

### **Q: I have been told that Wireless Alarms are prone to false alarms, caused by Taxi Cabs, Mobile Phones and other wireless equipment and will be forever going off, is this true?**

A: No, this has not been the case for the last 10-15 years, modern wireless alarm systems use Smart wireless signalling and are just as reliable as there hard wired counterparts.

### **Q: Can the Alarm system be Jammed/Blocked or scanned by a Burglar?**

A: Government Agencies may have access to the equipment needed, but for 99.9% of the rest the answer is NO. The Alarm uses a Pulsed, 128bit Encrypted Wireless Signal with over 42,000 combinations on a Random Rotation.

### **Q: How many Detectors/Remote Controls can I add to the alarm system?**

A: In theory there is no limit, the System has 6 Wireless Security Zones, we would recommend no more than 5 detectors on each zone (30) at most, for remote controls you can have as many as you like.

### **Q: Does the Alarm have a Part Arm function, so I can use the alarm when I am in bed, IE Upstairs Off and Down Stairs ON?**

A: Yes : Full Arm and Part Arm from the Control Panel and Remote Control.

### **Q: Will the Alarm system ring my mobile or other number if activated?**

A: Yes, the Luxhome Wireless Alarm System, can be programmed to contact 4 telephone numbers. land line and mobile, and once the call is answered will play a pre-recorded message.

### **Q. Does the Alarm Bell Box have Flashing LEDS to indicate it is real?**

A. Yes, 2 x RED LED's that Flash Alternatively, offers a great visual Deterrent.
