

How To Steam Clean A Microwave

What you will need:

small bowl

2 tbsp water

2 drops lemon essential oil

sponge

How to do it:

- Place the 2 Tbsp water on the bowl and place into the microwave
- Add the lemon essential oil
- Close your microwave and turn on high power for 1 minute. This will effectively steam up the inside of the microwave

- Open the microwave and place your sponge on top of the water and allow it to soak into the sponge
- Then take your sponge and clean the inside and outside of the microwave

Quick, Easy And Effectively!
