COMPANY PROFILE

2021

WE DEVELOP – WE DELIVER

ABOUT US

The Philippines is known to be a minor player in the international game and software development scene with only a fraction of share in a billion-dollar global industry. It is also known that the Philippines has a few Filipino owned game and software development studio that runs all over the country. However, this has not stop us to start small as an indie-developer and think big like a AAA Company, to fill-in the gap we from different gaming company joined together to form a game and software development studio compose of all Filipino Developers and Designers.

Overcast Games was founded 2019 by a dreamer and an entrepreneur believing that he can change the development scene in the Philippines. That is why we formed a dedicated group of employed professionals who specialize in digital product development and management. The team is composed of exceptional individuals that are devoted to bring quality services to their clients. Whether it's Software and Web development, video game and mobile application needs, we will deliver.

We at Overcast Games has the heart of a gamer and an attitude of a professional service-oriented company that ensures clients content and satisfaction with their product. For this to happen we are committed to provide employees with a fun working environment that adheres to a "work hard, play hard" mentality.

Here at Overcast Games

"WE DEVELOP – WE DELIVER"

Experience our veteran programmers and developers from known arts and gaming studios gather for the purpose of providing the highest quality of service has to offer.

OUR BUSINESS MODEL

1. **Game Design Development (mobile, pc, advergaming and gamification)** – make mobile and pc games that are fun and suited for the wide audience.
2. **Web Development** – making your site comprehensible, eye-catching and user friendly.
3. **Software and Application Development** – making a smart application that fully delivers and usable by consumer.
4. **Digital Asset Creation** – provide the assets that the client had envisioned.
