Who We Are

Adwit Solar Power Private Limited is a leading solar project developer in residential, industrial & utility solar power projects situated in Agra(UP). ASPPL has wide experience of Design, Engineering, Supply, Installation and Commissioning & Operation & Maintenance in SPP projects ranging from 2 KW to 2000 KW. We have installed many SPP for industrial, Residential clients across states of India.

The company has mostly focused on captive power generation where the customer has taken decision on the basis of economics. The company is striving to build a brand name as a solar power solutions provider. It is a professionally managed private limited company with the founder and other director each having strong background in technologies related to solar power with more than 7+ years of experience.

Our strengths are affordable, customized, techno-commercial solutions for solar power projects for Industrial, commercial & residential consumers.

We are authorized channel partner of Akshay Jyoti Energies Pvt Ltd.

Our Products

Solar Balance of System Supply

Solar Mounting Structure with Hardware
DC & AC Cables on Customized Basis
DCDB, AJB & ACDB With SPD's
Chemical Earthing's & LA With Mounting Set
MC4 Connectors & Other Accessories

Solar Street Lighting System

Innovative & Latest Technology Based
Durable & Long Life Maintenance Free
Automatic On-Off Operation [Dusk-Dawn]
Centralized & De-Centralized Options Available
Stand Alone Solar Powered

Solar Ready to install Pre-Engineered Kits

Pre-Engineered & Designed Kit, Get It on Call
Ready to Use Bundled Packaged Solution
Hassel Free Easy to Install
Fastest in Implementation
Best Quality with Standard Warranty

Solar Water Heaters/Geysers

Hot Water Without Electricity Bills
Good Performance in Winters & Cloudy Weather
Backup Heaters for 24*7 Hot Water
SS304 Food Grade Tank Material
Pressurized & Non Pressurized Options

Solar Home Lighting System

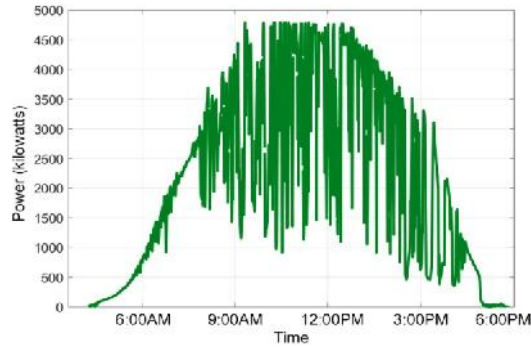

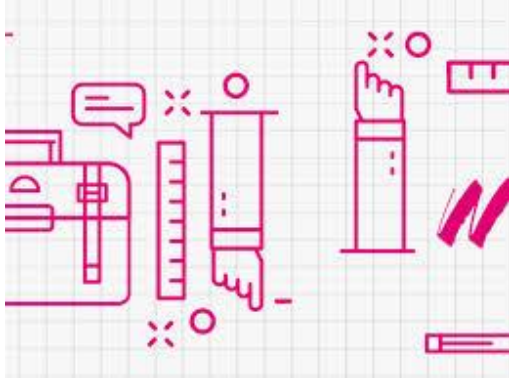

Easy to Install
Customized In Diff. Configurations
Free From Grid Outages
Long Life with Low Maintenance
Free From Electricity Bills

Solar Water Pumping Systems

Stand Alone PV Technology
Runs Directly On Sun Radiation
Grid Utility Option Available
Long Life With 5 Years Warranty
Subsidy Available As per Govt. Policies

Why Choose Us

7+ Years of Experience

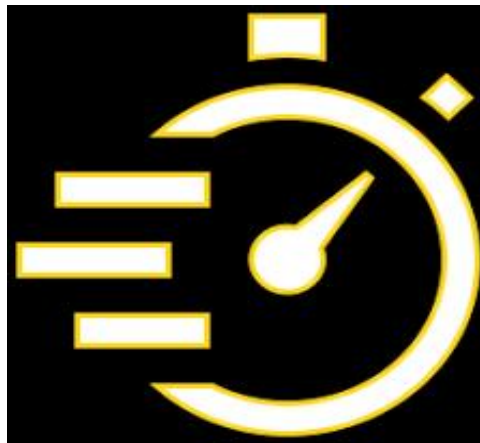

Higher Generation [1500Units/Kwp/Year

Government Subsidy/Tax Depreciation

7+ Years Experience in Solar Project Execution
Founder & Directors has Strong Technical Base
2 Kwp to 2 Mwp Hand on Experience

Optimized Engineering & Designs for High O/p
Minimum 1500Units/Kwp/Year Generation
Superior Work Quality with Very Low Maintenance

Subsidy as per Government Policies
Accel. Tax Depreciation Benefits to Ind/comn
Net Metering & other Approvals

Customized Solutions

Fastest Execution

Life Long Support/Relationship

Customized Roof top Solution as per Client
Raised, Ballast & Normal Mounting Solutions
Roof space as power generating source

Trained & Technically Qualified Team
Hand on Experience to execute within time
Effective management to deliver in time

5 Years Warranty Support
Separate Service vertical for support
Complain attend in 48 Hours
