- Comes with all the latest and newest cloud controls - including Zero Trust

- Certified with the best security and privacy accreditations including ISO 27001:2013 and ISO 9001:2015
- 1 of the only 2 cloud HR Software solutions in Singapore certified with the highest level of cloud security standard

Why Do Companies Choose

QuickHR for Their Team?

We have been using QuickHR for 4 years and everything has been going well. Before this, we were using another HR system, but QuickHR has helped us save time in running payroll, and our employees use the mobile app to clock-in for attendance.

From onsite presentations, sales, admin that send quotes, bills, etc, training (onsite or remote) and support line - each touchpoint amazed me.. Other than a great team, you have a user-friendly software design even for non-HR users like us..

Other QuickHR HRMS

Software Features

Leave Management System

A fool-proof leave management system with a multi-tiered approval system, easy tracking of leave status, and detailed reports to help manage employees' requests in real-time.
