Providing Better Living, Working & Learning Environments

Acoustic Associates Sussex Ltd.

Our Mission Statement

To provide better living, working and learning environments

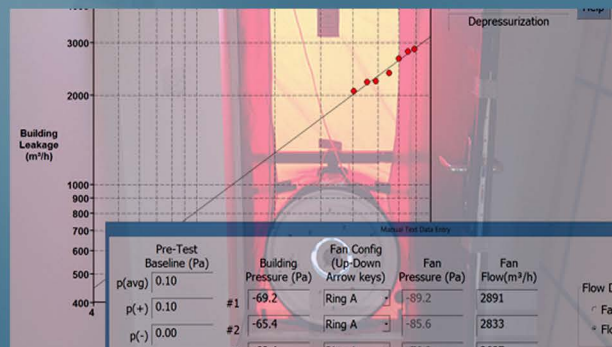

Our experienced team of skilled and fully qualified Consultants and Technicians aim to not just meet but to exceed the expectations of our customers by providing cost effective solutions and giving a professional service from start to finish.

About Us

Acoustic Associates Sussex offers an entirely impartial independent consultancy service for the solution of noise and vibration problems.

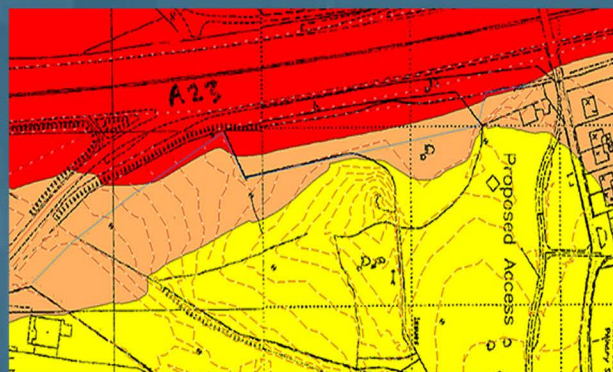

Formed in 1990 Acoustic Associates Sussex are registered with the Association of Noise Consultants and we are also a Chartered Building Consultancy with The Chartered Institute of Building (CIOB). We are an experienced team of fully qualified Consultants and Technicians. Our Acoustic Consultants are all Degree and Post-Graduate qualified and individual members of the Association of Noise Consultants and the Institute of Acoustics. Our Technicians likewise are all individually accredited to carry out Sound Testing by The Association of Noise Consultants and accredited by the Air Tightness Testing & Measurement Association (ATTMA) to conduct Air Tightness Testing on newly-built houses, flats & commercial developments (Level 1 & Level 2).

Our Client Sectors

Our client base is wide ranging and includes:

- Planners & Developers
- Architects
- Housing Associations
- Local and Central Government Departments
- Schools, Colleges & Universities
- Entertainment and Sports Venues
- Church Halls & Community Centres
- Private Individuals

Providing Better Living, Working & Learning Environments

Our Services

Building Acoustics:

- Sound Insulation Testing
- Reverberation time measurements
- Specification of noise control measures and materials
- Advice on design for acoustic performance
- Computer predictions

Building Air Tightness:

- Pre-Air Tightness Test advice with control measures
- Air Permeability (Tightness) Testing
- Fault finding service if a dwelling were to fail

Environment Noise & Planning:

- Planning Advice
- Impact assessments to British Standards
- Transportation Noise Assessments
- Noise Mapping & Recommendation of Mitigation Measures
- Expert Witness

What Sets Us Apart

- We are a Chartered Building Consultancy with The Chartered Institute of Building (CIOB).
- Our team of Consultants and Technicians are all individually third party accredited
- We have the experience and technical expertise to respond knowledgeably and quickly when you need help
- Following Sound Insulation and Air Tightness Testing our technicians can normally provide full written reporting within 1-2 working days. An indicative result can normally be given on site on the day of testing
- If we spot a fail whilst carrying out Air Tightness Testing we will let the client know while we are on site and will work with them to fix it before re-testing the same day wherever possible
- Most importantly we care about our clients and our reputation

Client Testimonials

"As Chartered Surveyors and Commercial Property Managers we have converted various properties over recent years including an industrial unit to a music college and several offices or shops to residential involving the now mandatory improvements to sound insulation measures and resultant testing of the finished product for Building Control purposes.

We have always used Peter Attwood and his team at Acoustic Associates Sussex as the service is very professional for a reasonable price and more importantly the recommendations always proved successful and all tests passed without fail. We at Marshall Clark are happy to recommend using Acoustic Associates Sussex."

Wayne Gosden - Marshall Clark

"Wilmington Homes Limited have been using Acoustic Associates Sussex for a number of years on its projects. We find their approach to resolving complex planning issues relating to noise very proactive, working with us, our architects and the local authority to find solutions that deliver what is required to achieve the required standards whilst also considering the cost implications to the overall project."

Charles Wiggins - Wilmington Homes

"We have used Acoustic Associates extensively for planning application, appeal and expert witness work over many years and have always found them to be extremely knowledgeable, informative and client friendly in their advice"

Huw James - DMH Stallard

Acoustic Associates Sussex Ltd.
