TESTIMONIALS

I am the very proud owner of a Pro oven from the Blistering Woodfired team. I have been searching for a oven which can provide the outputI need when working big events.

The Pro ticks all the boxes I was looking for, very well made,good space to work within the oven and capacity. We have the ability to cook upto 4 pizzas at anyone time with the PRO and so can cook upto 150-200 pizzas a night.

Other benefits are that I was able to have it painted the colour I wanted. Tim was a huge help in making sure I picked the right oven for my business. This oven is the business and I definitely recommend it !

Jonny Hewitt

I've really enjoyed this oven. I use it at least 3 times a week. It's become a great addition to the Kingy family. If I'm not using it my sons are. Rock on, it's a good'un. This is a great oven - the best pizzas this side of Naples!
