John Cowe Plumbing 14th June 10 – 2nd July 10

I worked at the Royal Highland Centre on the highland show, plumbing in water and waste supplies for the marquees, static vans and the main halls at the centre. Then I maintained and serviced and was on standby for problems over the show and stripped out water and waste supplies after the show.

Glovers of York 9th Sept 10 – 22nd March 11

I worked on the Doo` cot pub Edinburgh on behalf of Glovers plumbers of York, completing a temporary agreed contract refurbishing the pub and managers house .Including all hot ,cold ,waste, rainwater guttering and heating pipework facilities, for bars and toilets in the pub and the same at the managers house , all the gas works also and a specialist under ground drainage recycling waste system that recycled rain water through a controlled pumped watering system in the gound. I currently do the maintenance work and emergency calls on behalf of Glovers for the Doo` Cot pub.

John Cowe Plumbing 13th June 11 – 1st July 11

I worked at the Royal Highland Centre on the highland show, plumbing in water and waste supplies for the marquees, static vans and the main halls at the centre. Then I maintained and serviced and was on standby for problems over the show and stripped out water and waste supplies after the show.

Gordon Guthrie Contracts LTD 4th July 11- 18th July 11

I worked for Gordon Guthrie Contracts LTD on a temporary 2 week contract on a range of different jobs at a range of locations (to help out with there heavy work load). These included , maintenance jobs , some new install site work ,some refurbishments in existing properties etc.

Muirfield Contracts 3rd August 11 - 23rd October 11

I worked on a site in Tranent for Muirfield Contracts , completing plumbing and heating works as part of a team of plumbers completing approximately 30 houses (of an initial 100) as a temporary job. These houses consist of kingspan solar renewable energy pressurised hot water systems, incorporated with upstairs downstairs zoned pressurised heating systems, and bathroom wares and cloak room toilets.

Gordon Guthrie Contracts LTD 24th October 11 – 17th February 12

I worked for Gordon Guthrie on an agreed temporary contract refurbishing Balerno village church with 2 new toilet blocks and a complete new heating and hot water system (designed and installed by myself, and I am now in talks with the church as to maintenance arrangements).

John Cowe Plumbing 11th June 12 – 29th June 12

I worked at the Royal Highland Centre on the highland show, plumbing in water and waste supplies for the marquees, static vans and the main halls at the centre. Then I maintained and serviced and was on standby for problems over the show and stripped out water and waste supplies after the show.

Samuel Smith Brewery 20th July 12 – present

I was approached and asked to help out there reactive maintenance on their 2 pubs (The Doo Cot Road House Ferry Road , The Crammond Inn Cramond) I am now approved plumbing contractor for these 2 pubs.

Samuel Smith Brewery 24th July 12 - 26th September 12

I began refurbishing the Crammond Inn
an making remedial works needed
To the toilets and heating system as
Requested.

D&F contracts October 2012 –Present
I worked with D&F Contracts and NGP architect's for 18 months on a range of refurbishment building projects I was the plumbing /heating/gas engineer consultant for 3 of their projects in Edinburgh City 2 of these were 5 storey unique office spaces for The Leach Partnership , and the third was a 3 storey house on Herriot Row.
I undertook the task of advising, designing and installing all plumbing /heating and gas work and above ground drainage and hot/cold water systems and supplies to the 3 mentioned buildings.

NON ACADEMIC ACHIEVEMENTS:

Achieved Music award at Haven High School for recognition for outstanding Music achievements in GCSE Music.

PERSONAL PROFILE:

I am a 9 year experienced sole trader and 14 year experienced plumber/heating engineer that has a vast experience with planning designing and installing plumbing and heating systems. I feel I work well on my own but also can constitute a great deal as part of a working team ,and my good people skills and professional working attitude can help me oversee and overcome project hang ups and unforeseen problems. I have worked on many building sites as sub contractor/ plumber heating engineer and I work well as a team player to see the job finished on schedule and to design specs. I have also had lots of experience dealing with private clients handling there design planning and installing domestic heating and plumbing systems working on a range of systems ranging from a small 1 bed flats right through to 12 bedroom mansion's.

JOB OBJECTIVES:

I am looking to continue expanding my plumber /heating engineer work in the Edinburgh area ideally as a sub- contractor plumber /heating engineer /consultant. I also have the idea of the possibility of maybe some project management /development on medium scale building works in the future.
