Teleco Solutions

William fixed the broadband and landline in our house. He was keen, easy to deal with and didn't make any mess. His price was reasonable. Mick fixed a problem with our aerial and was also very good.

Review

William came to our house in Chigwell to move our master socket at very short notice when we were having building works in our kitchen. William was able to move the master socket quickly and also helped move our alarm. We are grateful for his services and would recommend him to anyone in the future.

Experienced and helpful engineer

William arrived at the time arranged. He was thorough in finding where the fault in my BT system was and explained what he was doing and testing as he worked. His work is neat and he is clearly a very skilled and experienced engineer. His charge for the work was very reasonable. I will use again and have no hesitation in recommending him. Cathy, London

Fantastic service with a smile

Will came round at 8, stayed till almost 11 to finish the job professionally and to an excellent standard. I am really pleased with the job which he priced at extremely fairly. I would definitely have him round again. Highly recommended.

Great service

Great service, very patient and understanding the engineer knows exactly what he was doing. He cleaned up the mess and incompetents that the PLUSNET engineer had left the day before. I'm greatly satisfied with the service.

Excellent Service

We have called this company twice to relocate phone sockets etc. On both occasions the service was prompt, courteous, fairly priced, thorough, capable and the work

guaranteed.
Whats not to like?

BT quality but without the BT inefficiency

Focused on problem solving. No funny questions. No funny business, No time wasting like how BT engineers just keep sitting in the van while the meter ticks.. Came around on the same day, diagnosed the problem, it was not a problem in my house, it was on the BT end. Because it was on the BT end they couldnt fix it hence didnt charge me . Very Honest. Highly recommended.

Telephone socket replacment

The engineers arrived after notifying us by text that they were on their way. Very efficient, found the fault and repaired it ensuring that before they left, the services were working correctly.

Good polite and helpful explanation of the repair and fault and the repair quote was accurate.

I would use the company again.

Regards happy client from Chigwell.

Highly Recomend

We required a replacement telephone socket. We are a small shop and so were very pleased with the speed with which Teleco Solutions turned up to carry out the work and how quickly and tidily work was carried out. This ensured we had minimal disruption. Competitive price for work to be carried out too.

The Larder

10.
