CLIFTON ULTRASONIC BATHS

TOTAL LAB SUPPLIES

Everything For Your Laboratory

SW Series Ultrasonic Baths

Clifton Range®

These industrial strength ultrasonic baths are designed for demanding applications. The baths are also ideal for cleaning delicate or fragile components which may otherwise be damaged by mechanical cleaning.

Supplied complete with lid and basket.

SW3 model

The baths are available from 1 to 30 litres capacity and feature eco and dynamic sonic modes. Eco offers quieter gentler ultrasonic activity whilst dynamic running provides vigorous cleaning.

The touch pad, wipe clean, control panel with rotary dials for time and temperature, can be set between 30°C and 80°C in 5°C increments. The timer can be selected to operate between 1-30 minutes or continuously up to 6 hours.

Clifton ultrasonic baths are constructed from high quality stainless steel for durability, with side lifting handles on models SW3H upwards for easy transportation.

- Clifton sonicating water baths are designed with high power piezoelectric transducers ensuring maximum ultrasonic power throughout working area.
- Supplied with comprehensive operating instructions and two year warranty.
- Concealed heater and temperature sensors.
- Easy to clean tank.
- A 304 spec stainless steel tank gives good resistance to many sub-stances and a clean appearance throughout its working life.

SW30H model

Available models:-

SW1H	SW6H
SW3H	SW12H
SW6H	SW30H

Additional stainless steel wire baskets are available to fit which allow direct immersion of samples in the ultrasonic bath. Stainless steel for corrosion resistance and convenient lifting handles.
