

## Bromley House Clearance Information & Advice About Hoarders

Some insight into the home of a hoarder, piles of waste and rubbish might reach the ceiling, and piles of newspapers and boxes that fill the kitchen making it very difficult to cook and as a result become a safety hazard.

Sleeping becomes very difficult due to lack of space, eating and bathing may take place in such cluttered surroundings that these daily activities become strained and can lead to health issues. Simple things such as having relatives or guests to visit can be out of the question.

This state of affairs is difficult to understand for many individuals, many struggle to comprehend how people choose to surround themselves with large quantities of clutter and in some cases practically buried in rubbish. Is it a choice? Or are hoarders simply lazy individuals who are too lazy to clean up after themselves.

Guidance and understanding the issues are what situations such as this require, it is important to be aware that there is usually an event that triggers such disruptive actions such as a bereavement or illness.
