Production Planning is the process of aligning demand with manufacturing capacity to create production and procurement schedules for finished products and component materials. It tracks and makes a record of the manufacturing process flows, for example, the planned and actual costs. Also, goods movements from the conversion of raw material to semi-finished goods. SAP PP is fully integrated with the other SAP modules: SD, MM, QM, FICO & PM.

What is the target audience?

- Anyone interested in learning SAP customizing
- Anyone interested in learning SAP PP Production Planning
- Anyone wanting to get his own access to an SAP System
