WATER RECYCLING

Modern water recycling technology to minimise use of fresh drinking water and lost travel time when cleaning sewers, drains and culverts greatly improves efficiency and reduces hidden costs.

CCTV

At Enviro-Clean we believe in having the latest equipment available to ensure our customers always receive the benefit of our investments in technology. Our CCTV fleet is the most modern in Scotland and includes Ex (explosion proof) equipment for use in petro-chemical environments and cable lengths of up to 500 metres.

TANKERS

We have tankers of all shapes and sizes able to respond to any incident in any location, on or off road for waste or fresh water.

TRAC VAC

The only truly off road sewer jetting machine in Scotland -

**Trac Vac
from Enviro-Clean.**

Our ability and commitment to invest in plant ensures that there is a vehicle or item of plant for every job!

WATER RECYCLING

Modern water recycling technology to minimise use of fresh drinking water and lost travel time when cleaning sewers, drains and culverts greatly improves efficiency and reduces hidden costs.

FRESH WATER

We are the preferred contractor of Scottish Water to support them in supply continuation, during periods of temporary loss of water supply caused by local bursts. We can inject water back into the system or holding tank by pump and set up bottle drop's and bowser points for the public to draw from. Tanker operations can be supported by one of our Tanker Support Units to ensure chlorination and de-contamination of fittings and hoses

TIPPERS

We upgrade our tipper fleet regularly, bringing new vehicles on-board to maximise reliability, efficiency and increase payloads to suit different materials and media types.

SAFETY, HEALTH & ENVIRONMENT

ENVIRO-CLEAN

Helping to keep the UK water networks running

FEEDBACK FROM OUR CUSTOMERS

"I am very pleased with the way that the sludge tankering project has gone. I work forward to working with you again in the future."

"A job well done! Very pleased with the speed and workmanship, we will definitely keep you in mind for future works."

"Thanks Enviro-Clean for a prompt fix of my problem. Left the area clean and tidy."

"...a job well done by a good team. There were no problems and the crew finished promptly, even with their big tanker on the small Perthshire roads."

"Just as a wee foot note, the way you responded, acted and subsequently sent the costs for all the jobs I've given you is EXACTLY what we were looking for. It's been great to deal with you and your guys over the last couple of ships and this procedure is how we would like to continue with jobs in the future. Thanks again for all your support, we will be in touch soonest on receiving any requests for future port calls."
