

Office Furniture PORTFOLIO

Pure Office Solutions Ltd

About Pure Office Solutions

Pure Office Solutions are an office interior specialist providing a diverse range of high quality office furniture, combined with professional advice and support for all your office furniture, space planning and interior refurbishment requirements. We undertake projects of all sizes, from the supply of individual furniture items to turnkey office fit-outs.

We supply all types of office furniture, including general office and executive desks, bench desks, reception counters, conference and meeting tables, office screens,

free-standing and built-in storage, ergonomic office seating, reception and breakout seating. We also offer bespoke designs when appropriate.

Our clients enjoy the benefits of a great customer experience with an appointed design manager who oversees the project from the initial design stages through to installation and after-sales service. All our furniture and seating carries a five year guarantee.

Important notes about veneers and hardwood timbers

We use solid hardwoods and wood veneers whose varying grain and figure emphasise the natural beauty and individuality of the wood. No two pieces of timber are identical, and there will be natural variations in hue, grain and figure, and both knots and colouring arising from natural minerals in the wood. Bamboo also exhibits variations in colour and pattern. None of these variations or features are faults: they are simply proof of the natural origin of the product. Please note that most timbers and veneers either lighten or darken on exposure to light. Should you add additional items at a later date, there may be an initial colour mismatch that should even out over a period of time.

Colour accuracy

Due to variations in lighting and the limitations of the printing process, variations in colour may occur between the illustrations in this brochure and manufactured items. Samples of all our finishes are available on request from our Customer Service Department.

Specifications and Terms

We reserve the right to amend or update specifications, or delete items, without prior notice. All supplies are subject to our Terms and Conditions of Sale unless otherwise agreed in writing beforehand.

Office furniture for every area of your business

Bench System

Ambus Bench is a flexible, high quality bench desking system offering high capacity, easy to use drop-in cable management.

- Choice of metal frame or panel end styles.
- Sliding tops as standard for easy access to cables and sockets. Integral high capacity cable trays combined with vertical cable routing within both end frames and intermediate power towers.
- Tops and panels in a wide range of both MFC finishes and wood veneers.
- Wide choice of matching storage.
- Dividing screens with optional accessory bars or slatwalls – for mounting flat screen monitors, letter trays etc.
- Extend any bench simply by adding components – with no parts redundant.
- Range of single and double-sided benches enable optimal use of available floorspace.

Ambus®

Desks

Ambus is a very comprehensive, high quality desking system available in a wide range of both melamine and veneer finishes, with panel end or metal frame desk options and incorporating an extensive choice of storage and complementary dividing screens.

- Wide variety of top shapes to cater for traditional and new ways of working.
- 'Compact' corner and wave desks to maximise space utilisation.
- Comprehensive cable management options, all accessible from user side.
- Wide choice of both MFC and natural veneer finishes.
- Metal frame (in two styles) or panel end, with recessed frame and panel options to maximise usable knee-hole space.
- Very extensive range of storage.
- Three complementary screen systems.

Wave desks, SPA desk mounted screens

Compact wave desks, SLS screens

120° desks with integral pedestals

Compact wave desks on C-frames, clear frosted Perspex SPA screens

Executive

Ambus incorporates a wide choice of conference extensions and linking tops that enable the creation of executive workstations that simultaneously cater for meetings, paperwork and keyboarding – and fit neatly into whatever space is available.

- Choice of veneer or MFC finishes.
- Rectangular and corner desks (with or without bow fronts) up to 2m wide.
- Choice of compact, practical conference extensions.
- Comprehensive cable management options.
- Polished metal or matching timber handles
- Wide range of matching storage.

Barrel shape table on arrowhead bases, Glass cable management tiles.

Desks and Storage

Brevis is contemporary, innovative, flexible and exceptionally easy to assemble and reconfigure. The desking components, on Y-frames or C-frames, have a visual lightness which is complemented by the simplicity of the square-edged tops.

- Frames are unhandled to minimise the number of different components.
- Choice of fixed-height and adjustable-height frames.
- Worksurface shapes for both traditional and new ways of working.
- Wide range of both MFC and natural veneer finishes.
- Choice of cable management options.
- Extensive selection of storage units and conference/meeting tables.
- Complementary ranges of dividing screens.

Receptions

X-Range reception desks are built-up using modular components: simply combine rectangular and curved base units with your desired deskovers or glass shelves.

- Create receptions of any size.
- Combine solid deskovers and/or glass counter shelves with or without perforated steel front panels.
- Optional internally recessed panels to maximise leg room.
- Integral kickplates protect against accidental damage.
- Complementary square, rectangular and circular coffee tables.

Large open greeting space – with solid deskover to hide clutter

Juice®

Bench System

to view the full Juice brochure goto sven.co.uk/juice

Juice is a bench desking system that is truly adaptable and reconfigurable, with comprehensive but simple drop-in cable management.

- Extend any bench simply by adding components – with no parts redundant.
- Single and double-sided benches, free-standing desks and conference benches.
- Rectangular, wave or double wave top shapes.
- Choice of square or rectangular frames.
- Standard sliding tops and central power towers provide effective, easy-to-use wire management.
- Tops in a wide range of both MFC finishes and wood veneers.
- Wide choice of matching storage.
- Two styles of dividing screens, both with optional channels for mounting flat screen monitors and accessories.

Office Screens

Office Screens are featured in our Ambus, Brevis, Juice and X-Range brochures

We offer three screen systems, all available in sizes compatible with all our furniture ranges. All three systems feature variations of our unique multi-way linking system.

- ALU screens: substantial, aluminium framed, with the option of high capacity cable management.
- SPA screens: aluminium framed, with a slim, visually light profile.
- SLS screens: robust, extruded thermoplastic frames.
- ALU screens offer optional high capacity trunking for cables and sockets, at floor or desk height, accessed via hinged flaps on both sides (see main image).
- ALU and SPA screens are available with integral slatwalls or accessory bars for mounting flat screen monitors and accessories.

Fulcrum® CE

Desks & Storage

Fulcrum CE is contemporary executive furniture of the highest quality, combining modern styling with traditional craftsmanship. The palette of finishes comprises veneers, glass and gloss lacquers. These may be combined in a multitude of ways to create office suites of widely different appearance and character.

- Freestanding desks and desk + storage workstations.
- Complementary meeting tables and freestanding storage.
- Tops in veneer or in clear, frosted or white glass.
- Storage carcass and doors/drawers in veneer or white or black high gloss.
- Choice of handle styles, or flush fronts with "press to open".
- Desks supported on steel endframes or box bases.

HiStore is a floor-to-ceiling cupboard storage system, based around a range of standard components but customised to fit exactly into whatever space you have available. It enables you to fully utilise the entire height of your office for storage.

- Install against an existing wall, specify with a finished back to create a wall, or back-to-back to provide storage on two sides.
- Incorporate display or projection screens
- Comprehensive range of interiors, including shelving, lateral and roll-out filing, pigeonhole units and wardrobe fittings.
- Timber, glass or side opening tambour doors.
- Filing or storage drawers.
- Extensive choice of veneer, MFC and high gloss lacquer finishes matching all our other furniture ranges.
- Optional ebony detail lines and veneer inlays.

Modular Tables

Fliptop Tables

to view the full Modular Tables brochure goto sven.co.uk/modtablesimages

Range of tables with a Flip Top that may be easily released with a single spring catch and pivoted through 90° from horizontal to vertical. Tables may then be nested together, reducing the space needed for storage. Moving tables through doorways from room to room with "flipped tops" is simple and convenient.

- T-frame and Y-frame options in zinc, slate or chrome.
- Uniquely stable frame, with the additional option of linking plates to perfectly level adjacent tops. Fitting linking plates requires no tools and they store neatly under the top.
- Tables on glides or lockable castors.
- Rectangular, trapezoidal and D-end tops, in a choice of widths and depths.
- Tops in 25mm MFC or veneer, and 38mm veneer.
- Optional ebony detail lines and inlays on veneer tops.

Modular Tables

to view the full Modular Tables brochure goto sven.co.uk/modtablesbrochure

Sectional and Folding

Sectional tables in a variety of shapes and sizes, on removable legs, fixed or mobile frames, which may be used individually or linked together to form larger configurations. Versions with removable legs may be stored and moved on a mobile trolley.

- Quick-fit (removable) round legs finished in zinc, slate or chrome.
- Legs store under table tops. Mobile trolley available to store and move dismantled tables.
- Rectangular, trapezoidal and D-end top shapes in a wide range of sizes.
- Choice of edge profiles.

Folding Tables fold completely flat to minimise storage space when not in use. Folding is simple, carried out with the table upright, and requires no tools. Folding tables are effectively mini-desks, even incorporating cable management within the frames.

Sectional tables on round chrome legs, Light Oak with Ebony inlays. Matching HiStore storage.

G-Series™

to view the full Seating brochure goto sven.co.uk/seatingbrochure

Seating

G-Series comprises four working chairs with accompanying visitors/meeting chairs.

All models have been carefully designed to combine comfort and style with exceptional durability. There is a wide choice of mechanisms, arm and base options to enable you to tailor each chair to your particular needs and preferences.

All working chair mechanisms and columns have been tested to BS 5459-2:2000, for use by persons weighing up to 150kg for 24 hours per day.

G-Series visitors/meeting chairs are offered with and without arms, with straight or waisted shell, on cantilever frames (stacking and non-stacking) and on four legs.

G5 and G7 models may be specified with our unique Freefloat™ mechanism, which adds a forwards/backwards tilt and further enhances comfort. See page 48 for more information.

Ele & HBB

to view the full Seating brochure goto sven.co.uk/seatingbrochure

Executive and Conference chairs

HBB combines distinctive contemporary design with exceptional comfort. The range comprises working chairs with synchro mechanisms and conference chairs on both cantilever skid bases and four star swivel bases. All variants have arms and are offered with either high or medium backs.

HBB seating designed by Hilary Birkbeck.

Ele is modern reinterpretation of a classic seating design, improved and enhanced to suit the modern office and boardroom. The range comprises working chairs with synchro mechanisms and conference chairs on both cantilever skid bases and four star swivel bases. All variants are offered with either high or medium backs, and conference chairs are available either with or without arms. Ele also offers a distinctive bar stool for coffee bars and breakout areas.

Ele EL3M conference chair

HBB1HA working chair with headrest

HBB2MA conference armchair

Meeting and conference chairs of exceptional quality and comfort.

F1 and F2 models have solid hardwood frames in a wide range of timbers and finishes. F3 and F4 models have steel tube frames.

All models are available with or without arms, and steel parts are available painted zinc or black, or in polished chrome.

Four-legged models may be specified with our unique Freefloat™ mechanism. Freefloat™ provides a smooth range of movement from a forwards tilt of -3° to a rear tilt of +10°. The automatically progressive resistance requires no user adjustment and because no controls are required the Freefloat™ mechanism does not alter the visual appearance of the chair. Freefloat™ is optional on Fulcrum F1, F2 and F4 chairs and on G-Series G5 and G7.

Fulcrum F1 and F2 armchairs have been tested to BS4875-1 2007 to level 5 (severe contract use).

Soft Seating

Reception and Break-out

The versatile HB1 series comprises an individual chair and two seat sofa on polished chrome tubular legs. The HB1 chair is also offered on a spyder base and a polished aluminium base.

Skoop is cute, curvy and comfortable – and available on a skid base or 4 star aluminium base.

S-Sofa is a flowing, curvilinear design that can look sleekly conservative or distinctively modern dependant on the upholstery specified.

Lux is a very high quality interpretation of the traditional tub chair, in both single seat and two seat variants.

Monday is a crisp, visually light chair and sofa – with matching glass top coffee table – ideally suited to breakout areas or “smart casual” receptions.

HB1, Skoop, S-Sofa and Monday designs by Hilary Birkbeck.

XRMH2 - sofa with high back

Finishes

MFC (melamine) and our hand-selected, crown cut veneers are both very durable finishes. Veneers are a more costly raw material than MFC and require a lengthy and skilled series of preparation and finishing processes – and therefore carry a price premium.

MFC Finishes

- Wood grain MFC offers a realistic likeness of natural timber at an attractive cost.
- MFC provides consistency of colour and structure and a perfect colour match between panels.

Veneer Finishes

- Bring greater individuality and warmth to each item of furniture.
- The beauty of the natural variations in hue, grain and figure make each piece unique.

High Gloss Lacquer Finishes

- Create a contemporary look either alone or in combination with veneer.
