

BOND DENTAL

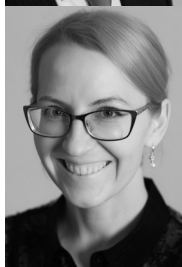

CLINIC

Our Team

Ian Downie – Consultant Oral Maxillofacial Surgeon

Ian is an Oral and Maxillo-facial Consultant at Salisbury District Hospital. Mr Downie attends the practice to provide a full range of private consultancy and clinical services including dental implants for our patients and those that have been referred to us by other dentists.

Birute Bond – Specialist Prosthodontist

Birute completed the world renown MCLinDent in Prosthodontics programme at Eastman Dental Institute in London with distinction and is registered with the GDC as a Specialist Prosthodontist.

Birute provides a full range of restorative treatment including crowns, bridges, dentures, smile makeovers, composite bonding and implant treatment. She is capable of carrying out the most complex and extensive restorations, tailored to meet the individual needs of each patient.

Anna Bate – Specialist Endodontist

Anna completed an MSC in Endodontics at Guy's Dental Hospital in 1997 and has been registered as a Specialist Endodontist since 2001. She carries out all aspects of specialist endodontics by referral only.

Anna utilises a special microscope to treat everything from root canal treatments to endodontic surgery for the patients of our practice and referred to us by local dentists.

Manuel Carbajal – Specialist Periodontist

Manuel completed his specialty training at the Eastman Dental Institute (the only postgraduate programme in the UK recognised by the European Federation of Periodontology, EFP) and gained Membership in Periodontics with the Royal College of Surgeons of Edinburgh. He provides a full range of gum disease treatment and advanced gum care to the patients of our practice and referred to us by other local dentists.

Gill Siggers – General Dentist

Gill is an experienced and skilled General Dentist with many years practicing in the Salisbury area.

Gill is a caring professional who provides reassuring advice and works closely with our multi-disciplinary team of Specialists to ensure that patients are offered the right treatment for their needs. She will outline clinical problems clearly and discuss treatment options in straightforward terms.

Sally Granger – Dental Hygienist and Therapist

Sally is a highly experienced Dental Hygienist and Therapist and is well liked by our patients. She has a unique way of making patients feel at ease, even during uncomfortable treatments.

Sally works very closely with Specialist Periodontists in the area, as well as the Specialists in Bond Dental Clinic to treat gum disease, including around implants (peri-implantitis). She is the best person to coach you in creating a bespoke homecare routine for you.
