DISCLAIMER

WHAT IS A SMILE MAKEOVER?

Dentists use the term “smile makeover” when referring to the process of changing the appearance of your smile using a variety of cosmetic dentistry procedures. Some smile makeovers can be achieved in one visit with dental bonding, while others may involve multiple treatments and visits as with full mouth reconstruction.

Here are some ways you can improve the appearance and health of your smile through cosmetic dentistry Smile Makeover

- Change the size and shape of a particular tooth,
- Repair chipped teeth, dental fractures, cracks, and other defects
- Close unattractive spaces and gaps between teeth
- Instantly Straighten crooked and misaligned teeth
- Mask tooth surface stains, discolorations,
- Replace missing teeth and therefore restore your chewing and speaking ability
- Lighten and brighten the color of your teeth
- Replace old unattractive dental fillings and dentures
- Anything else that compromises a person’s smile

WHAT'S INCLUDED IN A SMILE MAKEOVER?

Procedures used in smile makeovers may include:

- Dental Bonding - Bonding is commonly used to reshape teeth or conceal small gaps, chips, or cracks. It is applied and sculpted while you're sitting in a dental chair.
- Porcelain Veneers - A master ceramist crafts custom wafers of tooth-shaped porcelain to conceal imperfections in your teeth. The shade, shape, and translucency will complement your facial features. Read our porcelain veneers page for details.
- Porcelain Crowns and Bridges
- Dental Implants
- Invisalign - A smile makeover might include orthodontic treatment. Invisalign invisible braces align your teeth faster and more precisely than traditional braces.
- Teeth Whitening - Teeth whitening breaks down deeply embedded stains. It revives your smile and helps it look younger.
- Gum Surgery and Grafting
- Snap on Smile
- Tooth Contouring

Most smile makeovers involve four or more teeth, depending on the original teeth and desired outcome. Every case and patient are unique, and we customize each smile makeover. Changing every tooth or the full mouth is not always necessary.

Who is a Good Candidate for a Smile Makeover?

To accurately determine your smile makeover candidacy, you'll need to schedule a consultation with our experienced dentists. However, there are a few ways to tell if this customized combination of dental procedures might be a good fit for you.

1. You Have Multiple Aesthetic Concerns That You Want to Treat
2. You May Also Have Functional Issues
3. You Have Good Oral Health

Generally speaking, patients must have good overall oral health before beginning any cosmetic treatments. We believe that it is important to create the right foundation for your beautiful new smile. If you have oral health issues, such as cavities or gum disease, they will need to be treated in the early stages of your smile makeover.

Moving forward, it is essential to establish good oral hygiene routines and attend regular dental check-ups. These steps will ensure that your mouth remains healthy, which will ultimately improve the longevity of your smile makeover results.

4. You Have a Good Oral Hygiene practices in looking after your teeth and gums

IF YOU DON'T, any smile makeover treatment that you undertake will have a very short lifespan due to neglect and poor oral hygiene

[PORCELAIN VENEER SPECIALS AND PACKAGES WITH PREPLESS OR NO-PREPARATION VENEER](#)

HOW TREATMENT IS PLANNED AND SCHEDULED IN OUR PRACTICE USING PORCELAIN VENEER

FIRST APPOINTMENT - PREPARATIONS AND SMILE DESIGN DISCUSSIONS

The first appointment would involve preparing the tooth, gum lifting and other restorative works if needed, then taking impressions and sending that impression to the lab so they can fabricate your Porcelain veneers. Their turn-around time is 3-4 weeks for delivery.

There will be a temporary veneer on tooth with visible preparations.

This first appointment might take 3-5 hours depending on the number of teeth we will be doing.

SECOND APPOINTMENT 5-10 minutes PREVIEW

After we receive your case from the lab, there will be a morning preview for you to see, assess and preview your work from the lab. If there is something you want it to refine, we can return your case to the lab until you are happy.

If you are happy with everything, then the next appointment will be a full day cementation. The preview appointment will need preferably a morning appointment so you can better assess the shade and will take about 5-10 minutes

THIRD APPOINTMENT - Few hours cementation appointment

This will be a morning appointment and might take 3-5 hours depending on the number of teeth we will be cementing.

FINAL APPOINTMENT -Check cemented restorations

After cementation, I have to see you in a week time to check everything. Anytime of the day that suits you.

DENTAL BONDING AKA COMPOSITE VENEER

[FIND OUT MORE ABOUT DENTAL BONDING OR COMPOSITE VENEER](#)

[FREQUENTLY ASKED QUESTIONS ABOUT DENTAL BONDING](#)

[Composite Veneers vs Porcelain Veneers – Which is right for you? Find out more](#)

[Advantages and Disadvantages of Composite bonding](#)

PROCESS OF DENTAL BONDING

This treatment involves 1 major appointment for 1-2 hours or more, depending on the number of teeth we need to do and another 15-30 minutes second appointment to do adjustment or refinement as needed.

The procedure is carried out using composite materials to correct any dental imperfections. Minor preparations on the front surface of the tooth maybe required to allow room for Composite veneer. This Composite material is then moulded into the desired shape and finish of your natural tooth then polished.

HOW MANY TEETH DO YOU GET VENEERS ON?

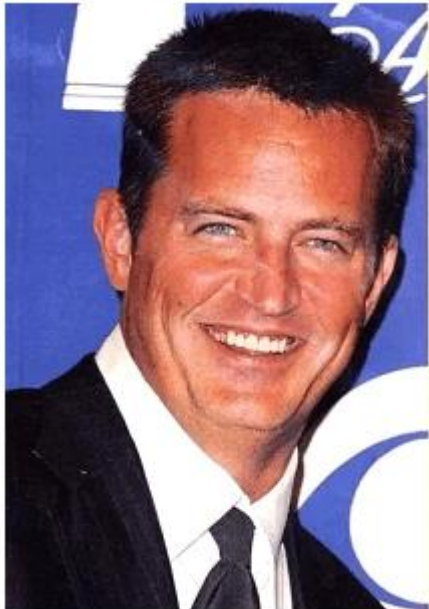

How many veneers should you get? It is a good idea to have an even number of veneers. Two, four, eight, ten or twelve veneers give the best aesthetic results.

Take a good look at this old image of Matthew Perry from his early days in Friends to see what you DON'T want. It isn't hard to see a few mistakes there, right?

Take another look at Matthew Perry's smile above and you'll understand why these 3 questions are critical:

- How big is your smile? Now when you look in the mirror and smile big, how many teeth do you see?
- How much whiter do you want your teeth? A little bit or a lot? Or are you happy with the whiteness?
- Besides the color, do you want to change anything about the length, width, shape, or overall size?

In simple terms, **the bigger your smile and the bigger the changes that you want, the more teeth have to be treated**

How Many Teeth Show In Your Smile?

No – not just looking straight on – look from the sides, too. Too many people think they only show 6 teeth, because that's what they see in the mirror. But if you turn your head just a little to one side, you'll realize that you probably show at least 8 or 10 teeth total in a big grin. You see what a big mistake that was for Matthew Perry, right? He clearly needed 10-12 veneers, his grin is so wide.

Of course, if you are only unhappy with 1-2 teeth in that whole smile, you always have the option of only treating those specific teeth. Just because you show a lot of teeth in your smile doesn't mean all of them need porcelain veneers, but if you want to change your whole smile, you do need to plan on treating ALL the teeth that show in your smile.

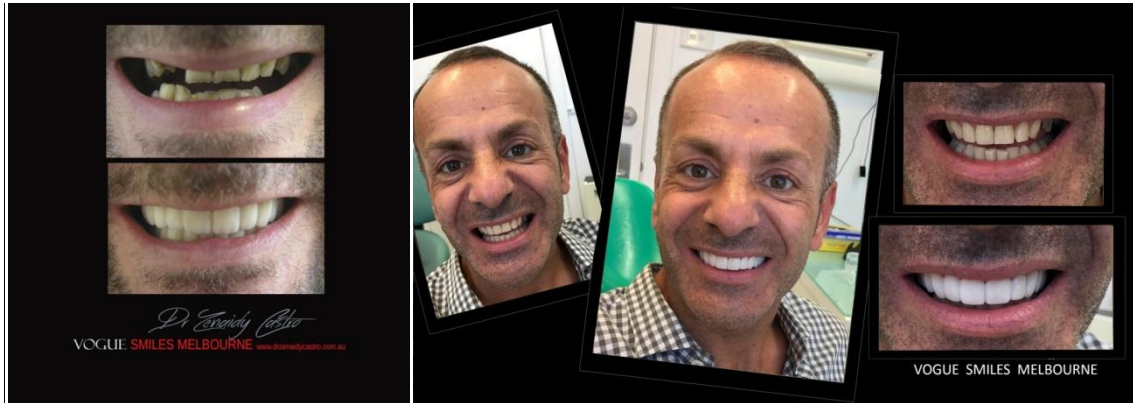

How Much Whiter Do You Want Your Smile?

Again, Matthew is a great example. He obviously wanted his smile to be a lot brighter; he's in Hollywood after all. It's easy to see that, if you make a dramatic change in the colour of your smile, you can't stop half way. This is one of the most important reasons to look at how many teeth you show when smiling. If you want much brighter teeth, you have to do all the teeth that show. Sometimes that means doing the bottom teeth, too.

If you're keeping the colour teeth you already have, you have more freedom to choose how many teeth get veneers. In fact, if you like the natural colour of your teeth, you might only need to do whichever teeth you don't like. However, if you only get 1-2 teeth done but want your whole smile brighter, do Teeth Whitening FIRST. can't be whitened!

SNAP ON SMILE

[FIND OUT MORE ABOUT SNAP ON SMILE](#)

TEETH WHITENING

Two main procedure

1. Take home bleaching kit. This is done by the patient at home.

Our at-home kit contains close fitting custom-made teeth whitening trays and a user-friendly low-concentration whitening gel. Whitening gel is applied to the trays, which need to be worn consistently for an hour every day for a week or two to achieve the desired result.

This is a simple system promising good results. You can comfortably whiten your teeth either while you sleep (by using our Pola Night system) or for an hour during the day (by using our Pola Day System). It offers you the convenience of being able to use it whenever you like for the 7 to 14-day period. We provide you with enough whitening gel for your initial treatment period and a number of maintenance applications. Under our supervision this technique is safe for your teeth and gums.

2. In-office procedure. Safest, fastest and most effective way to whiten teeth. Professional bleaching is a thorough process and begins with a cleaning your teeth and gums. This ensures tartar and other impurities don't interfere with the whitening process.

We have both ZOOM! and Sapphire laser system

In-Office Teeth Whitening with Sapphire Laser System

[FIND OUT MORE Why Sapphire Laser is better System than teeth whitening system!](#)

How is LUMIBRITE Sapphire Laser whitening different from other forms of whitening?

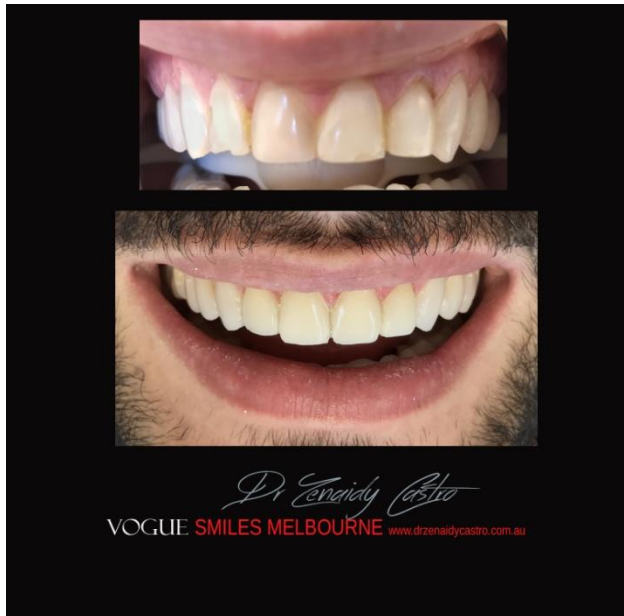

- Pain-free, zero-sensitivity whitening in most cases
- Beautiful, white smiles in fewer than 30 minutes of treatment time
- No lengthy isolation or potentially dangerous UV rays
- Long-lasting results

PERMANENT TEETH WHITENING WITH PREPLESS PORCELAIN VENEER

© 2020 Dr Zenaidy Castro. All Rights Reserved

TOOTH CONTOURING

Tooth contouring is the cosmetic technique whereby your teeth are reshaped to make a jagged and uneven smile, beautiful. It can alter the length, shape, and surface of the tooth. The process of contouring your teeth is entirely painless, as it only requires a buffing down of the enamel.

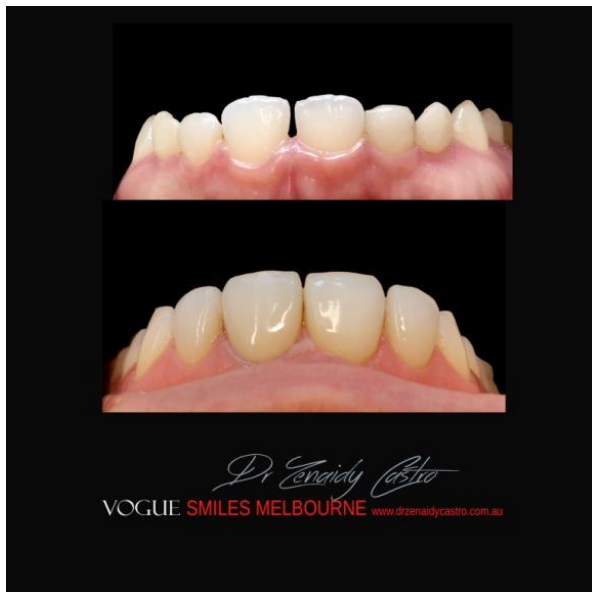

GUMMY SMILE TREATMENT WITH CROWN LENGTHENING /GUM LIFTING WITH PORCELAIN VENEER

Crown lengthening surgery is a surgical procedure performed on a healthy periodontium that requires exposure of adequate tooth structure for restorative purposes, so the amount of tooth exposed supra-gingivally is increased.

Crown lengthening may also be a procedure used for smile line correction. In this case, crown lengthening is performed to reshape the gum line to improve the aesthetics of your smile by exposing more of your natural tooth surface.

Crown lengthening is normally performed under local anaesthetic. The amount of time this procedure takes will largely depend in how many teeth are involved and whether a small amount of bone needs to be removed, in addition to the soft tissue. During this procedure excess gum and bone tissue are reshaped to expose more of your natural teeth.

UNDERSTANDING THE COST OF SMILE MAKEOVER

Unfortunately, there isn't a set fee for a smile makeover because the cost is determined by your individual treatment plan. The cost of a smile makeover can range from a few hundred dollars to few thousands or more.

Several factors can influence the amount you pay:

- Complexity of your needs
- Your current oral health and severity of existing issues
- The number of teeth being treated.
- The materials and techniques used in fabricating a certain procedure

After performing your consultation, we'll provide you with an estimate and explain the fees associated with your plan. If applicable, we'll work on your behalf with your dental insurance to maximize your benefits to lower the cost. For any remaining balance, our office accepts several payment options, like third-party financing.

Our Accepted Methods Of Payment

- Cash, Bank check, card or Direct Bank transfer
- Insurance coverage
- Third-party financing
- In-house flexible Dental Lay by
- QOIN payment with Cosmetic Dentistry. Partial and NOT FULL QOIN payment, to be discussed on your exam booking as to what Cash and Qoin component is accepted
- BBX Trade with Cosmetic Dentistry. Partial and NOT FULL BBX payment, to be discussed on your exam booking as to what Cash and BBX trade component is accepted

PAYMENT POLICY

Acceptance of the written treatment plan indicates your acceptance and agreement to pay all professional fees in full. For some larger treatment plans involving multiple appointments, a deposit payment may be required to reserve this amount of clinic time in our appointment book just for you.

Payment is required as the services are rendered or before initiated unless otherwise expressly agreed by us.

SMILE NOW - PAY LATER

SMILE NOW PAY LATER

We offer the following payment plans

Schedule your FREE Smile Makeover Consultation Today! 03- 9629-7664

While we provide boutique, high-end dental services, we don't believe that dental care should be out of anyone's price range. We want you to feel confident in a smile that looks attractive and functions naturally—and fits within your budget! If you don't believe you can afford the dental treatment you need (or want), we encourage you to speak with us so we can find ways in making the General and Cosmetic treatment that you need and want possible. We have helped countless patients receive affordable dentistry, providing them with beautiful new smiles that have changed their quality of life. At any time, we are here to help and will ensure your dental care is affordable.

We make our dental services affordable by assisting you in maximizing your insurance benefits and accepting a variety of payment methods. We also offer third-party dental financing or with our In-house flexible Dental layby funding options. We even bundle pricing for your treatments so you know exactly what you'll pay for our services and can plan accordingly or apply for financing. Don't let fear or embarrassment about your budget keep you from getting the dental treatments your smile deserves. Let us know how we can help you!

The easy and affordable way to budget and pay for your dental treatment

Spread the cost of your treatment into affordable payments and get that winning smile and a healthy pain and problem free Smiles. The payment plan enables our patients begin with their treatment immediately – then pay the cost of their treatment spread over time. It is an excellent payment option for elective cosmetic and/or emergency or general dental procedures.

We have different third party financing company who would love to help you get the treatment that you need. Each of these third party dental financing, have their unique features and benefits in their products. You have to choose which would better serve your needs.

To start with the process, first thing is to check basic eligibility requirements they need for application. And have a quick look at TLC monthly repayment chart to get an idea on your weekly or monthly repayment.

WEBSITE: <https://www.opy.com/au/>

TO APPLY OR ENQUIRE: 1300 168 359

5. ACCESS MY SUPER

Access My Super assists patients make an application via the Compassionate Release of Superannuation (CRS) Program, operated by the Australian Taxation Office (ATO) to cover the costs of variety of dental treatments including Orthodontics, Implants, Crowns, Braces and many more.

Access My Super takes all the stress of the paper work and makes it a simple and easy journey for you, so you can focus on the more important things in life.

The benefits of Access My Super include:

- Funding for essential dental care
- Offers funds to yourself, your partner, spouse or dependent child
- No credit checks because you are accessing your own savings

- Provides funds for treatment in private clinics and avoid long waiting time of public hospitals

WEBSITE: <https://accessmysuper.com.au/>
TO APPLY OR ENQUIRE: 1800 845 121

6. AFTERPAY

- Afterpay gives you the freedom to purchase now and pay over time
- Easy sign up and instant approval
- No external credit checks
- Pay in 4 equal installments, every 2 weeks, 0 interest when you pay on time
- Reminders to ensure on time payments and responsible spending
- Limits start at \$500 and increase up to \$2k

7. IN-HOUSE DENTAL LAYBY

Many of us have used or have heard of the layby system that the larger department stores have, this payment plan works in a similar fashion.

PROS

- It is totally up to you how much and how often you want to pay.
- No finance companies are involved and no credit checks are required.
- This is an easy way for patients to save up for their dental treatment.
- Might suit patients who are not eligible for a third party financing or patients who doesn't want to touch their superannuation
- No monthly account keeping fees if your proceed with the treatment
- Once you have paid in full the treatment plan quoted for, we will go ahead with the work.

CONS

- Treatment is only rendered after the full payment of the treatment fee quoted to your specific needs
- Not suitable for urgent, emergency dental treatment
- Subject to terms and conditions
- If there is a significant change in your oral conditions than what was initially diagnosed, extra charges will apply and be added on your dental laybys or be paid separately.
- Cancellation fees will incur \$50 per month admin fee

HOW IT WORKS:

STEP 1 Book an initial consultation

A fully paid consultation (and x-ray if you still have teeth) is required to establish the extent of treatment and the final figure.

STEP 2 Choose your service

During the initial consultation, we will advise and guide you in order to choose the service targeted to your needs and budget.

STEP 3 Choose your Dental Layby duration.

You can choose to spread your treatment over 3, 6, 9, or 12 months.

STEP 4 Choose the instalments frequency

You can set up your instalments weekly, fortnightly or monthly* according to your income and budget.

STEP 5 Agree to your treatment plan.

2 WAYS OF STARTING THE TREATMENT

Depending what kind of treatment is involved, there are 2 ways of starting the treatment.

1. For big value treatment such as Cosmetic or Smile makeover treatment, the work will be started after you completed a full amount of your treatment fee
2. By payment milestones

For a treatment where it involves a combined restorative and Cosmetic treatment plan, your full treatment plan will be divided into 2- 4 major payment milestones. Each milestone has a target payment cost that must be paid off in order to activate them. Once activated, we will complete all work associated with that milestone. As you continue to pay off each milestone, we'll continue to complete the dental work associated with that milestone until all milestones are completed, the treatment plan is finished according to your Dental Layby Agreement.

IN-HOUSE [DENTAL LAYBYS IS SUBJECT TO THESE TERMS AND CONDITIONS. FIND OUT MORE](#)

RESERVATION FEE AND DENTAL BOOKING

We offer a Complimentary 15 minutes Smile Makeover Consultation.

However, we do require a \$50 reservation fee. IF YOU SHOW UP TO YOUR RESERVED BOOKING, This fee will go towards your treatment fee should you decided to go ahead with the treatment. IF YOU DON'T SHOW US , and haven't given us a 2 days courtesy call to reschedule, this fee become a non-refundable cancellation fee.

This reservations fee is payable before we can finalise your booking.

PAYABLE RESERVATION FEE OF \$50

MEET YOUR DENTIST AND COSMETIC DENTIST - Dr Zenaidy Castro

The Dentist Behind the Amazing Smile Transformations at Vogue Smiles Melbourne

What sets Dr Castro apart?

Dr. Zenaidy Castro found her passion of dentistry through her experience with creative activities. As a lifelong painter and photographer, Dr. Castro is a passionate dentist who cares about creativity, perception, and working with her hands to create something beautiful. Naturally, she found that dentistry allowed her to use these skills in an impactful and fulfilling way.

Dr. Castro separates herself through her artist's eye for detail, intuition, and finesse.

As an artist and dentist, Dr. Castro has a keen eye and attention to details. With 3 decades of experience so far, Dr. Castro definitely knows her way around a tooth.

What matters most to her, though, is the person behind the smile. She's helped countless patients gain new leases on life through stunning dental transformations that go the extra mile.

Further she said "For the past 55 years, I have made a point of following my inspiration while chasing my life dreams. Art has always fascinated me as a child, I loved drawing and painting. Visual creativity fascinates me and it is a passion can't help but follow. This fascination with art, artistic inclination and visual creativity led me in adulthood to be more passionate in cosmetic dentistry. I have been able to use this talent to help countless patients enjoy the smile they dreamed of—and now I aim to make people smile as a valuable piece of artwork. I find it personally rewarding and fulfilling to see the impact of the smile makeover I have made on my patients life – those beautiful smiles in which they are happy and proud of. It is a reward that money cannot buy!

Outside of dentistry, I am passionate about all kinds of painting, from landscape to abstract. In late 2014, I discovered another creative outlet and that is photography. Since then, it has become an important part of my life. My photographs have garnered several awards and recognition both locally and internationally. I am an animal lover and strongly supports local and international animal welfare and charity. I have two Sphynx cat named Zucky and Zooky, whom I adored so much. I love nature and gardening and travelling. Oh well I guess this is not a little bit into anymore about myself, I guess It's your turn now. Hoping to meet you soon in person and would be your turn to tell us about yourself. Hopefully not just your dental pain and problems but your longings about having a beautiful smile.

Well, see you soon. Call us now on 03-9629-7664 and I would love to meet you.

2. The material posted is for informational purposes only and is not intended to substitute for professional medical advice, diagnosis or treatment. Results vary with each patient. Any dental procedure carries risks and benefits. If you have any specific questions about any dental and/or medical matter, you should consult other dentist, physician or other professional healthcare providers.

3. The photograph shown on this document are all actual cases of Dr. Zenaidy Castro. We use our own "before and after" pictures to demonstrate the results of our services. We do not suggest that identical (or equivalent) results can be obtained for all patients as every patient is different and such results cannot be indicated, promised or guaranteed.

COSMETIC RESULTS MAY VARY FROM PATIENTS TO PATIENT

Suitability, effectiveness and cosmetic results will vary from patient to patient. Every individual is unique and these photographs are not necessarily an indication of what may or may not, be achieved in your smile. In order to access your individual suitability you would need to come in for a consultation when your teeth and needs would be assessed, and the different treatment options discussed. Call our office on 9629-7664 to book an appointment to see if you are an ideal candidate for the procedure.

4. All Photographs shown from Before and After Picture pages on our website are our actual patients. Consent was obtained and they all signed a release agreement form. Subject to Privacy Law safeguard, person/s appearing in the photographs are not able and be willing to be contacted.

5. You should assess your financial position and personal objectives before making any decision based on this information. We recommend that you check with the third party financing provider's website and contact them directly to do your full research ABOUT FINANCING OR PAYMENT PLAN THEY ARE OFFERING.

6. TEETH WHITENING

Eligible patients must be 17 years or older. Teeth whitening treatments should not be used during pregnancy or breastfeeding.

An in-office exam is needed for any Teeth whitening treatment for assessment that you are suitable for teeth whitening treatment

7. Not all the outlined procedures will suit everybody. Patients have their own unique dental health and needs. Some procedures carry a very high subjective results and we can't 100% predict if you would be completely satisfied and happy with the result such as with the case of Snap on Smile appliance.

IN-OFFICE EXAMINATION, ASSESSMENT AND CONSULTATION IS NEEDED FOR US TO CHECK OF YOUR UNIQUE NEEDS, WANTS AND ORAL STATUS AND FOR US TO SEE IF YOU ARE A GOOD CANDIDATE FOR A PARTICULAR PROCEDURE
