Hard Landscaping  
Solutions

Established for over forty years, NT Killingley offers a commercial landscape and earthworks contracting service covering all aspects of landscaping.

As a multiple BALI Award winning company, we are one of the UK's leading Hard Landscaping Contractors, offering an unsurpassed level of quality and workmanship.

At NT Killingley we endeavour to be at the cutting edge of the Hard Landscaping industry, working with main contractors and architects on numerous prestigious landscaping schemes. Our in-house Engineering department provides surveys, full setting out from electronic formats and an as-built drawing service. We can offer a full and competitive package for the most complex schemes and large scale contracts.

From design concept to project completion we work with clients, architects and suppliers utilising our years of experience to assist in the development of designs and specifications ensuring that the highest quality scheme is produced.

## Premier Landscaping Contractor

At NT Killingley we understand the important impact quality paving and landscaping has on any scheme. Our in-house workforce is able to complete the most complex of projects to the highest possible standard.

Having successfully undertaken work on a wide range of projects, including public realm areas, highways, university campus', car parks and open spaces we have gained an in-depth knowledge of the industry.

Working on projects ranging from £10k to over £1 million in value we have a varied experience in paving and landscaping schemes.

We offer a full range of Hard Landscaping Services including:

- Modular and Decorative Paved Surfaces
- Minor Civils including Highways
- Gabion Baskets and Retaining Structures
- Bollards, Seating, Signs and Street Furniture
- Asphalt and Safety Surfacing
- Drainage and SUDs
- Service and Utility Diversion
- Car Park Construction
- Play Equipment and MUGAs
- Utilities Repair Works

Successful management of the project is critical to ensure the scheme is completed on time, within budget and to the highest quality. Each scheme is assigned an experienced Site Manager and Site Foreman to provide one point of contact, and to control quality, production and cost.

We can help in specifying the most suitable surface for any project

## Specialist & Decorative Surfacing

NT Killingley Specialist Surfacing division has over 15 years of experience installing specialist and decorative systems and is a highly-regarded installer of quality resin solutions throughout the UK.

Used for both commercial and domestic applications, resin and bitumen surfacing systems are available in a wide variety of coloured aggregates.

By sourcing the best quality products through local suppliers, we consistently maintain the highest standard of finish ensuring customer satisfaction.

### Our Specialist & Decorative Surfacing Services include:

- Resin Bonded Surfacing
- Resin Bound Surfacing
- Tar and Chip Surfacing
- Coloured Surfacing
- High Friction Surfacing
- Slurry Surfacing
- Footpath & Carriageway Maintenance including Resin Tactiles

# Resin Bound & Bonded Surface Dressings

We offer a choice of 2 different systems for our hard wearing and low maintenance decorative surfaces, all of which use an eco-friendly resin to fix the gravel aggregate.

**Resin Bound:** The aggregate is mixed with resin which is trowel applied and prepared to a smooth finish with no loose stones. The finished surface is porous and SuDS compliant when used with the appropriate base build up.

**Resin Bonded:** A scatter system which provides texture, the appearance of loose gravel and is non porous. We apply a layer of resin to a suitable surface and then cover with loose aggregate. Once cured the remaining loose stones are removed.

## Industry Leaders

At NT Killingley we ensure we stay at the forefront of the industry by continuously improving and developing the division. By researching the latest trends and innovations we can ensure that our product offerings stay ahead of our competitors.

We install BBA Hapas approved materials and are approved installers of specialist products including Addagrip & Flexipave.

## Testimonials

We are committed to ensuring the highest level of customer satisfaction, which is demonstrated through our recent testimonials.

*"NT Killingley have recently completed our new multifunctional square within the heart of the University of Leicester main campus, converting it from an old car park.*

*This was an extremely difficult project given its location and proximity to academic buildings, but NT Killingley managed to complete the works with minimal disturbance to University activities and to an excellent standard of workmanship. Everyone at the University are extremely pleased with the project and would be happy to recommend them on similar schemes."*

**Matthew Flint - University of Leicester**

---

*"The quality of workmanship was to a very high standard, with all features including natural paving, steps, walls and bespoke metalwork completed to the highest possible standard. Killingley proactively supported and responded to design queries in a positive and diligent manner and were always willing to offer professional advice to ensure that the completed scheme matched our expectations.*

*It has been an absolute pleasure and privilege to work with Killingley and their team and I have no hesitation in recommending them for future opportunities and wish them every success moving forward."*

**Mark Bodman - Barry Chinn Associates**

---

*"During the course of the previous four years NT Killingley have undertaken work on a number of Projects in Sheffield that I have been responsible for.*

*Often working to timed daily deadlines in areas of high footfall, they have successfully and safely managed pedestrian and traffic movements, whilst liaising with local businesses and meeting overall Project deadlines.*

*I would have no hesitation in recommending them for similar work on behalf of other clients."*

**Paul Williams - Streets Ahead, Amey**

NT Killingley offer an award winning commercial landscape and earthworks contracting service covering all aspects of bulk earthworks, groundworks and landscaping. With a full time staff of 150 and a turnover of £15 million, NT Killingley can offer sufficient skills and financial capacity to carry out the largest projects. Complex projects are a particular speciality as the Company has a large skilled in-house workforce, covering all the trades found in hard and soft landscape projects, earthworks, sports pitch construction, play areas, fencing and grounds maintenance work.
