Technical Information and Advice for Obsolete Industrial Parts & Components

Obsolete Industrial is a technology-based, community-driven company dedicated to helping industry keep equipment running by solving tough problems associated with obsolete parts and components.

WHAT WE OFFER

Technical Information & Advice
Access a wealth of technical resources and get advice on hard-to-find, obsolete, and legacy industrial parts and components.

Maintenance Forum (Roundtable)
Our community forum is the place to ask questions, troubleshoot issues, and share solutions. Registration is FREE.

Free Industrial Classified Ads
Post your wanted or for-sale ads at no cost. Connect with a global audience looking for obsolete industrial parts.

ABOUT US

Community-Driven
Our strength comes from a global community of maintenance professionals, engineers, and industry experts who share knowledge and real-world solutions.

We Do Not Warehouse Parts
We do not buy, sell, or warehouse parts or components. Our focus is strictly on information, advice, and connecting people with solutions.

Technology-Based Solutions
We leverage technology to organize information, foster collaboration, and deliver answers to your most challenging obsolescence issues.

For the Industrial Community
Created by industry, for industry—because the demand for obsolete parts doesn't stop, and neither do we.
