

LightHouse Dental Announces new Dental Clinic in London Ontario with 7-Day Emergency Dental Services

New clinic offers same-day emergency dental care, 7 days a week, along with full-service dentistry for families in London, Ontario.

LONDON, ONTARIO, CANADA, April 7, 2025 /EINPresswire.com/ -- LightHouse Dental is pleased to announce the upcoming opening of a new full-service dental clinic in London, Ontario, with a strong emphasis on fast and accessible

emergency dental care. The new location will serve as a vital resource for residents experiencing urgent dental issues such as toothaches, broken teeth, infections, swelling, and other dental emergencies that require immediate attention.

“

We're excited to bring our patient-first approach and full-service dental care to the London Ontario community. Family Dentistry and Emergency dental care 7 days a week.”

LightHouse Dental London

The clinic will be located at 1850 Adelaide St N, Unit #1, in a busy commercial plaza at the intersection of Adelaide and Sunningdale. The site offers convenient access from key areas of the city, ample free parking, and a bright, modern facility designed to offer a seamless patient experience. LightHouse Dental London has been designed to meet the highest standards of efficiency, cleanliness, and patient comfort.

LightHouse Dental London will provide same-day and next-day emergency dental appointments, 7 days a week,

including evenings and weekends. Whether a patient is suffering from severe dental pain, a chipped or fractured tooth, an oral infection, or trauma due to an accident, the clinic will be fully equipped to offer fast, effective care. In dental emergencies, timely treatment is critical to managing pain, preventing infection, and avoiding more serious health issues. Patients will be able to call or book online to receive urgent care when they need it most.

Timely intervention can also help avoid complex procedures that may arise when issues go untreated. Emergency services will include assessments, x-rays, pain management, temporary and permanent restorations, and infection control. For patients without a regular dentist or those experiencing emergencies outside of traditional office hours, LightHouse Dental London offers a dependable and responsive solution.

In addition to emergency dentistry, the clinic will provide a full range of dental services for patients of all ages. These services include regular checkups, dental hygiene, fillings, whitening, veneers, crowns, bridges, dentures, tooth extractions, and root canal therapy. Preventive care will play a central role, with oral health education and personalized care plans aimed at long-term wellness. Cosmetic and restorative dentistry options will also be available to enhance both function and appearance.

Each treatment room will be equipped with advanced digital imaging and technology, as well as modern amenities to ensure patient comfort. Massage dental chairs and access to streaming services like Netflix and YouTube will help make visits more relaxing. These thoughtful touches support patients who may feel anxious about dental visits and ensure a more pleasant experience overall.

The team at LightHouse Dental London will include experienced general dentists, hygienists, and on-site dental specialists. This multidisciplinary model eliminates the need for external referrals and long wait times, enabling more comprehensive and timely care under one roof. Services such as endodontics, surgical extractions, and denture services will be handled on-site. Sedation dentistry, including nitrous oxide and sleep dentistry, will be available for patients requiring more complex treatments or those who experience dental anxiety.

Affordability and accessibility remain top priorities. The clinic will offer direct billing to all major insurance plans and submit claims electronically to reduce paperwork and eliminate the need for patients to pay upfront. Flexible and interest-free financing options will be available to accommodate those without insurance or with limited coverage. LightHouse Dental London will also participate in the Canadian Dental Care Plan (CDCP), ensuring that eligible patients can access the care they need without financial hardship.

The clinic's patient-first approach extends to every aspect of the experience—from the ease of booking appointments online to the welcoming attitude of the front desk team. LightHouse Dental is committed to making high-quality dental care available without long waits, unnecessary stress, or confusion.

By combining rapid access to emergency dental care with full-service general and specialty dentistry, LightHouse Dental London is positioned to become a trusted resource for families and individuals across the city.

The clinic is currently finalizing preparations for its opening and will begin accepting new patients

shortly. For more information about emergency dental services or to book an appointment, visit www.london.lighthouse dental.ca or call (519) 964-8888.
