

A Simple Guide for Getting Started In Rail

Many people who first consider working in rail, feel they do not have all the information they need to get up to speed about the process of getting trained and finding work within the industry.

The links in this section aim to provide you with all the basic information you need about Sentinel cards, the Industry Common Induction (ICI) and Personal Track Safety (PTS), so that you can be up to speed with what you need to know and your next action steps.

If after going through the links here you have any further questions or enquires, please do not hesitate to contact us or consult our questions page for other frequently asked questions.
