What Is XANAX?

[How To Buy XANAX? >>>](#)

What is XANAX used for?

XANAX is the brand name for generic medication known as ALPRAZOLAM. XANAX is a kind of opioid pain medication that is used for treating moderate to moderately severe kind of pain. A patient can now buy XANAX online from any of the online medical websites.

XANAX another use includes using it for relieving pain from back pain, sciatica, and for postoperative pain following spine surgery. For most adults, the maximum safe dose is 400 mg per day of immediate-release tablets. It has been proved that XANAX hydrochloride can allow a significant reduction in the dose of NSAID without compromising the relief of pain.

XANAX classification

XANAX is used to treat anxiety and panic disorders. It belongs to a class of medications called benzodiazepines which act on the brain and nerves (central nervous system) to produce a calming effect. It works by enhancing the effects of a certain natural chemical in the body (GABA).
