

### SAP SUPPLIER RELATIONSHIP MANAGEMENT (SRM)

#### Overview

The SAP *Supplier Relationship Management* application (SAP SRM) provides strategic value through sustainable cost savings, contract compliance, and quick time-to-value. Companies are equipped with tools to drive superior results through an end-to-end source-to-pay process. Activities such as spend analysis, category management, requisitioning, sourcing, operational contracts, invoicing, and supplier management are part of an integrated platform.

#### Objectives

This training enables you to strategically plan and manage, all interactions with third party organizations that supply goods and services to an organization in order to maximize the value of those interactions.

You will get to know about the procurement processes of an organization by automating, accelerating of procure to pay processes for goods and services.

#### Who is it targeted to?

- Any Graduates/Post Graduates are eligible.
- Anyone having knowledge in Data Warehousing technologies.
- Any technical background consultants are eligible to learn SAP SRM Online Training.

#### Prerequisites
