With our lock fitting service in Leicester, our engineers understand the significance of selecting the right locks to safeguard your home or business. That's why we proudly offer the PROLOX® double 6 pin euro cylinder in dual finish, a premium lock obtained from the reputable lock manufacturer, Prolox. This exceptional lock excels in providing excellent protection, as it has been thoroughly tested to deter criminal activities and has obtained industry certifications. Let's explore the key features of the PROLOX® double 6 pin euro cylinder, emphasising its remarkable security attributes and how our lock fitting service in Leicester can guarantee the utmost safety for your property.

Introducing the PROLOX® double 6 pin euro cylinder in dual finish, a highly secure euro cylinder lock that comes equipped with 5 keys and a retaining screw for added convenience.

This exceptional lock offers excellent protection and has undergone rigorous testing to effectively reduce crime. It has been awarded the prestigious Sold Secure Gold approval, assuring you of its superior security standards. Additionally, it conforms to the BS;EN1303:2015 standard, further validating its reliability.

The PROLOX® double 6 pin euro cylinder is built to last, tested to withstand 100,000 key cycles and providing a minimum of 100,000 effective key differs. This ensures its durability and makes it highly resistant to wear and tear.

One notable feature of this lock is its versatility. It can be easily keyed alike to all other sizes of Double, Single, Thumbturn and Rim Cylinders within the Prolox range. This means that you can have a single key that operates multiple locks, offering convenience and ease of use.

The lock's security features include 8 movable retainers, specifically designed to enhance protection. These retainers include anti-pick, anti-drill, and anti-bump pins, making it extremely difficult for unauthorised individuals to tamper with or bypass the lock.

By opting for our lock fitting service in Leicester, you can ensure the utmost safety for your premises by installing the PROLOX® double 6 pin euro cylinder. With its exceptional security attributes and industry certifications, this lock provides reliable and robust protection for your home or business.
