RESIDENTIAL

PROJECT: THE WHITEHOUSE – CENTRAL LONDON

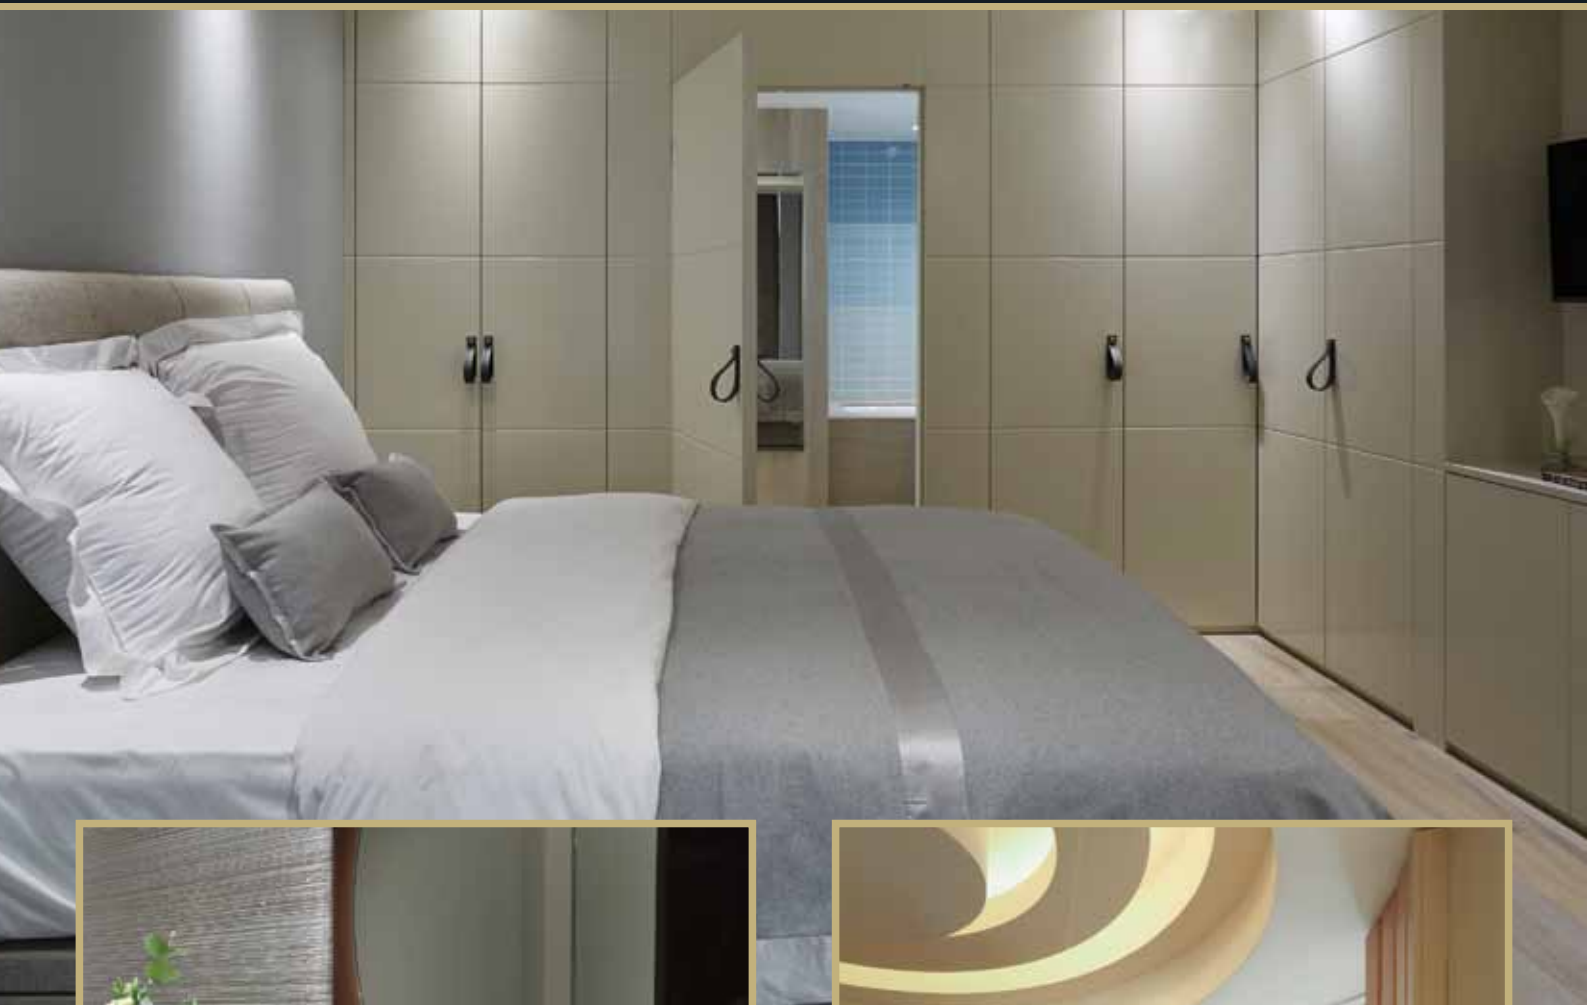

The Whitehouse Apartments are a truly prestigious development located on the culturally rich south bank of the river Thames. Regarded as one of the most successful office conversions in central London the Whitehouse offers a wide variety of apartments ranging from light and airy studios to three bedroom “staterooms” and penthouses. The development is somewhat of a rarity in central London, finding such a stunning array of residential blocks in the very heart of our capital city is an impressive offering. Full interior fit-outs were carried out by VPK on two apartments as can be seen in the images.

*Design is a plan for
arranging elements in such
a way as best to accomplish
a particular purpose.*

PROJECT: BLACKHEATH CONSERVATOIRE

Established in 1881 by William Webster, the Conservatoire is part of the oldest surviving purpose-built cultural complex in London, a vibrant and much-loved local institution. It was founded to provide art, music and drama education to the community.

VPK carried out various internal fit out projects throughout the building.

PROJECT: CADOGAN SQUARE

Cadogan Square is a residential square in Knightsbridge, west London, that was named after Earl Cadogan. Whilst it is mainly a residential area, some of the properties are used for diplomatic and educational purposes. The square is known for being one of the most expensive residential streets in the United Kingdom.

VPK fit out internals and walk in wardrobes to various apartments.

PROJECT: CHILTERN STREET

The chilterns consist of 44 luxury apartments which offer a standard of living that is second to none. Each apartment provides a living space on an unprecedented scale for this classic part of London and in a style that is simply breath taking.

VPK Supplied kitchens and cubicles to all apartments.

PROJECT: FLOWER LANE, MILL HILL

An iconic new build scheme of 42 apartments designed to offer the best in cosmopolitan living married with the convenience of impeccable local amenities and superb transport links. A subtle mix of 1, 2 and 3 bed apartments allow for an excellent choice of superbly finished homes in an atmosphere of security and luxury.

VPK fit out all 42 apartments along with office space and community hall.

MANUFACTURING

VPK's production facility in Waltham Abbey, North London combines the latest technologies in both computer aided design and manufacturing along with the care and attention to detail of bespoke craftsmanship. Whether we are conforming to an existing design or producing our own detailed design and specification each project is carefully planned to not only being produced on time but also within budget.

With the increase in intricate 3D models and drawings from architects and designers we realised the need to fully integrate these straight into our manufacturing software programs. With vast recent investment, not only in complex software packages but also state of the art CNC machining centres and equipment, allows us to produce the finest bespoke or mass produced work to the tightest of tolerances.

This technology combined with traditional skills and craftsmanship gives VPK the winning combination.

The key is to set realistic customer expectations, and then not to just meet them, but to exceed them

SPRAY PAINTS & STAINS

VPK are specialists in the professional spray painting and polishing of wood, MDF / Composites and any other substrate suitable for finishing. We can help you select the right finish for the effect you want to achieve.

VEROMETAL SURFACE

VeroMetal is a unique metabolising product which once applied allows the surface to be treated exactly the same as any original metal item, allowing it to be polished, distressed, patinated or even made rusty

3D FOIL WRAPPING

3D forming foil veneers are available in a range of finishes to ensure that kitchen, bedroom, bathroom, living and commercial areas can be designed where the product compliments and adds to the visual experience.

2D PVC DECORATIVE FOILS

2D versions of PVC decorative foils are ideal for profile wrapping and flat wrapping. The high performing layers of 2D foil guard the furniture surfaces against scratch, stain and moisture ensuring durability of your kitchen and bathroom furniture.

HI-MACS SOLID SURFACE

As an approved fabricator of HI-MACS® solid surface every option is available for designers to create complex Kitchens, Bathrooms, Reception desks, screens, etc. due to its incredible flexibility in use and design possibilities.

VENEERING

With their flexibility, versatility and their ability to gel in with any design scheme, laminates and veneers prove to be a cost effective alternative to solid wood.

ACCREDITATIONS

Accreditation is a formal, third party means of assessing the technical competence and integrity of a Certification Body.

As well as promoting established quality management principles, the revised ISO 9001:2015 standard includes a stronger customer focus. It looks at the motivation of senior managers and the processes they follow to implement continual improvement policies. By using ISO 9001:2015, businesses can benefit from consistently providing customers with high quality products and services.

ISO 14001 is the most important standard in the ISO 14000 series of environmental management standards. The International Organisation for Standardisation (ISO) has developed this series for businesses and other organisations looking to reduce their environmental impact.

Every business is faced with the challenge of meeting health and safety obligations. OHSAS 18001 ensures organisations, whatever its size or sector, meets those legal obligations, has the appropriate techniques in place to identify OH&S risks and makes workplace health and safety a priority.

All of Citation's Health & Safety consultants are either qualified members of the Institution of Occupational Safety and Health (IOSH) or the International Institute of Risk and Safety Management (IIRSM) taking the confusion out of Health & Safety compliance.

The mark of
responsible forestry
FSC® C011517

FSC is a global, not-for-profit organisation dedicated to the promotion of responsible forest management worldwide.

This enables businesses and consumers to make informed choices about the forest products they use, and to bring about positive change by engaging the power of market dynamics.

Whether you're a buyer or a supplier, we understand how important it is for you to adhere to the latest industry laws and legislation. That's why our supplier assessment has been developed by central Government, in collaboration with leaders from the construction industry (including HSE, Equalities and Human Rights Commission and Constructing Excellence) to ensure you meet the right standards.

MEMBER

The British Institute of Interior Design is the pre-eminent professional organisation for interior designers in the UK. In addition to rigorous entry requirements which assess training, experience and professionalism, we require our members to continue their professional development throughout their career to ensure their continued expertise in design process, practice and regulatory matters.
