Specification: Mini-Professional curtain track system from Renaissance. Hand drawn light weight track with silver metallic / anthracite / brushed steel / white / gold finish. Self lubricating plastic gliders at 16 per metre, face fix and top fix brackets, and combined end caps / end stops.

# Silent Glide

An unobtrusive, heavy duty aluminium track with a semi-circular cross section. With its strong white powder coated finish and elegant appearance, Silent Glide can be trusted to do just that - allow your curtains to glide silently and freely.

The 6mm groove allows space for heavy duty gliders, thus ensuring optimum performance for many years to come.

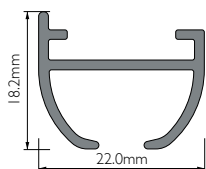

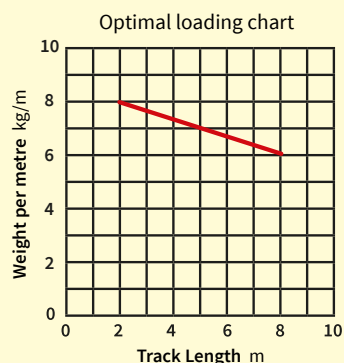

Gliders should be fitted at 16 per metre, and the track can be bent if necessary.

L-Bracket
