

# H&A

PROTECTION SERVICES

## MOBILE PATROLS

We tailor all our clients requirements to their Specific needs, this could be multiple patrols per Night or just one patrol.

All our Mobile Patrol Vehicles are highly liveried making them a great deterrent in their own right, but the added bonus of all our patrols vehicles is that we always have our K9 partners on board just in case they are needed to detect and track any unwanted persons on your site or property.

All our patrol vehicles have specific areas that they will always cover meaning they will always have local knowledge of what happens in the areas. All patrol vehicles can be tracked from our control room to monitor when sites have been patrolled.
