Risk Consulting Services

Our consultants & safety Managers are highly experienced, hands on, Risk Practitioners ensuring that you get professional support, service and advice, but more importantly a favourable return on your investment.

The Core aim is to ensure Compliance with the Occupational Health and Safety Act.

Our Consulting Services are tailor made to meet the customer's individual needs and to address problem areas in their Safety System.

This is done through auditing, reporting and recommendations and assistance with implementation of corrective action:

- Risk Assessment & Audits – OHASA legislated
- Occupational Health & Safety System design
- Legal Compliance Auditing
- Incident Accident Investigation
- Company Written Safe Working/Operating procedures
- Training Course Development
- Safety Equipment Inspections

- Lifting Equipment Inspections
- Fire Equipment Inspections
- Fall Protection Plan (Audits & Assessments – Construction Industry related)
- Fire Evacuation Systems
- Emergency Planning

Monthly Consultation Packages

- We offer and Tailor monthly Consultation Packages for Customers that do not have the resources to implement and maintain a Safety or Legal Compliance system:
- Risk System Implementation & Management
- Health & Safety System Implementation & Management
- Ongoing Safety & Awareness Programme Implementation
- Monthly Compliance Audits
- Safety Equipment usage & control
- In house Training
- Incident/Accident Investigations
- Health & Safety Committee meetings
- Toolbox Talks
