O que é um Apk Modificado?

De maneira simples, o **MOD APK** é uma versão modificada de um APK original (Pacote Android).

'Mod' significa 'Modificado'.

Mod apk não foi assinado originalmente pelos desenvolvedores originais do aplicativo. Portanto, não há suporte dos desenvolvedores originais.

Os **APKs de modificação** podem ter recursos extras, recursos desbloqueados, moeda inApp / **jogo ilimitada** (para jogos), às vezes suporte extra e muitas outras modificações e complementos (incluindo malware e Spyware).

Tenha cuidado antes de **baixar e instalar** qualquer aplicativo mod (principalmente pirateado) de qualquer fonte não confiável. Porque, há chances de o aplicativo estar infectado por malware.
