

NLP Master Practitioner

Proactive NLP Ltd

Certification

Join us at Proactive NLP, for this 16 day NLP Master Practitioner programme. This fully accredited programme has been developed to enable delegates to achieve mastery of their life purpose and create a compelling vision that others will want to engage with.

What will you learn on this programme:

“Between stimulus and response there is a space. In that space is our power to choose our response. In our response lies our growth and our freedom.”
— Viktor E. Frankl

All our programmes will deliver a full NLP syllabus and more. Without a powerful purpose all you’re left with is a set of fancy skills. On this programme you leave with a powerful and compelling sense of purpose and meaning that others will want to engage with. You will be a leader.

This NLP Master Practitioner training is focussed on your journey towards self mastery. We believe NLP is about freedom and choice – so expect to breakthrough those barriers and self-imposed limitations that have restricted your freedom and growth to date.

The following is a snapshot of what we will explore and will be related to the choices we make for ourselves and how to create proactive choices for ourselves and others.

- Embody the foundations and guiding principles of NLP – the ‘How’ of **Excellence** at a deeper and more meaningful level.
- **Master Conversational Change** with an understanding of the most advanced language patterns that will allow you to ethically and ecologically influence a person simply in conversation with them.
- Elicit and utilise personal values to **resolve conflicts** and trigger **motivation towards** your ultimate **purpose**.
- Uncover the complex meta-programmes that create the **uniqueness of you** and learn how to identify these patterns in other people to **influence with integrity**.
- **Model an individual** who represents **excellence** in a field that you want to develop more competence in, learn how to assimilate this in yourself and also teach others how to replicate this learning.
- Experience a transformational **personal breakthrough session** and lead someone else through their personal breakthrough session.
- Integrate and synthesize your advanced NLP skills and facilitate your own and other’s continuing **evolution to mastery**.

Why you will choose this programme:

- You wish to fully understand what motivates people and to appreciate the impact of values within individuals, teams and organisations and how to utilise this knowledge to create a more harmonious environment.
- You want to learn the advanced linguistic patterns that can enable you to master the art of conversational change so that you can influence positive change quickly and effortlessly.
- You want to achieve the gold standard of personal development: maximising your potential to transform and inspire those around you to achieve excellence.

How you will be assessed?

The most powerful form of communication is behaviour.

Integrating the NLP skills and concepts into your behaviour (what you do...how you act) is the evidence procedure for certification as a Master Practitioner of NLP.

The assessment criteria of an NLP Master Practitioner is based on:

Attitude (embodiment of the presuppositions of NLP)

Content Knowledge (frames, principles, techniques, distinctions)

Behavioural Skills (demonstrated integration of learning)

Depending upon your practitioner certification you may be asked to complete an additional programme prior to attending this Master Practitioner programme.

Certificates are awarded to all delegates who:

- Complete each day of the programme;
- Demonstrate an understanding of the attitudes, concepts, skills and behaviours taught during the programme;
- Complete all exercises showing they can act within ethical and ecological boundaries;
- Complete the Practitioner Written Integration Paper.
