Practitioner Certification

Join us at Proactive NLP, for this 16 day NLP Practitioner programme. This fully accredited programme has been developed to assist in the search for meaning and purpose for those taking part.

What will you learn on this programme:

"Between stimulus and response there is a space. In that space is our power to choose our response. In our response lies our growth and our freedom."
— Viktor E. Frankl

On this practitioner programme we explore the space defined by Viktor Frankl in his book, 'Man's Search for Meaning' and seek to use NLP to assist our delegates make proactive choices to create a meaningful purpose for their lives.

All our programmes will deliver a full NLP syllabus and more. Without a powerful purpose all you're left with is a set of fancy skills. On this programme you leave with a powerful purpose and a toolkit to create meaning in your life. The following is a snapshot of what we will explore and will be related to the choices we make for ourselves and how to create proactive choices for ourselves.

- What is means to **Be Proactive**
- The foundations and guiding principles of NLP – the 'How' of **Being Proactive**.
- **Non-verbal communication** – from where the impact of your message is felt. Transform your ability to deliver your message with the desired impact.
- **Influencing with integrity** – learn how to tap into how you and the other people you work with see, hear and feel daily life so that you can enrich the experience.
- **Change** – it's so easy, isn't it? Really, it is so easy to change that trigger that has just gone off inside. Learn how on this programme.
- **'The problem is nobody communicates in this place'**. NLP will give you the linguistic tools to get to the heart of the issue and gain commitment to the solution.
- **Conflict – that's a juicy word is it not?** How about you being able to bring together the differing views so that **Collaboration** becomes the normal way of operating at work.
- One last bit... As Henry Ford said, "If you believe you can, you're right and if you believe you can't, you're right." Rid yourself of the "I can't" and **leave the programme transformed**.

Why you will choose this programme:

- You care enough about yourself and the people you come into contact with (now and in the future) to fully understand the transformational impact creating a proactive purpose for your life will have.
- You want to learn the attitude, methodology and techniques of NLP in an ethical way that will enhance your purpose.
- You want to grow and develop to your full potential and be a role model of excellence to inspire others.

How you will be assessed?

The most powerful form of communication is behaviour.

Integrating the NLP skills and concepts into your behaviour (what you do...how you act) is the evidence procedure for certification as a Practitioner of NLP.

The assessment criteria of an NLP Practitioner is based on:

Attitude (embodiment of the presuppositions of NLP)

Behavioural Skills (demonstrated integration of learning)

We know that you will want to be totally confident and assured in your abilities and use of NLP in the future and we will provide you with the following to ensure this is the case:

- Telephone and email support pre & post programme
- Ongoing assessment from the second we say 'hello'
