

The Pest Control Company You Can Trust: Effective Pest Control Solutions for Every Home

Pests are capable of derailing the comfort level, hygiene and safety at home or businesses. Be it an ant infestation in your kitchen, rats in your ceiling or wasps building their nest close to your roof, the appropriate assistance can make a world of difference. We are also proud that our company, Shire Pest and Property Care has gained the reputation of being the pest control choice of residents and business in the Sutherland Shire and provides the fastest, safest and long-term [pest control company](#) within Sydney.

We provide professional services and excellent pest control based on years of experience and local expertise as well as care and concern to our customers. When you want a reliable company to meet your pest control needs, then read in to find out why we should be the first option in your locality.

Why Pest Control Needs to Be Professional

Most people prefer to address the pest issues by themselves but they soon discover that if they fail to do it properly then the problem just does not go away. Off the shelf spray, and do-it-yourself traps will have a momentary reprisal but are ineffective in targeting the cause of the infestation. This is where professional solutions of pest control are effective.

We are the pest control company that knows the local scene like the back of our hands because we know the mannerisms of the pests, their hiding grounds, and the measures needed to get them out of the way, discerned without compromising the safety of local conditions.

Here's why choosing a professional team is the smarter, safer option:

Thorough inspections to detect pest activity in hidden areas

Safe, targeted treatments that don't harm your family or pets

Integrated pest management plans to prevent recurrence

Experienced technicians who know how to handle every type of pest

Peace of mind that your home or business is truly protected

Comprehensive Pest Control Solutions We Offer

We do not have a one size fits all mentality at Shire Pest and Property Care. Each service is customized to the particular type of pest, the nature of the property, and safety issues. Our professional team provides a variety of remedies against pests, which are:

- **Rodent Control:** Rats and mice can cause structural damage, contaminate food, and spread disease. We use baiting, proofing, and exclusion techniques to eliminate them quickly and humanely.
- **Insect Control :** From ants and cockroaches to fleas, spiders, and silverfish, we handle all common household insects using safe, targeted treatments that prevent future infestations.
- **Bird Control:** Birds like pigeons and mynas can damage roofs, solar panels, and signage. Our bird-proofing solutions include netting, spikes, and solar panel barriers to deter them without harm.
- **Wasp & Bee Removal:** Wasps are aggressive and dangerous when disturbed. We provide fast, safe wasp nest removals using professional equipment and protective gear.

- **Possum & Squirrel Management:** As part of our [pest control solutions](#), we offer humane trapping and relocation of larger wildlife pests such as possums and squirrels, in compliance with local regulations.
- **Seasonal Pest Treatments:** Summer brings flies, mosquitoes, and ants, while winter invites rodents indoors. We provide seasonal pest control packages to keep your home protected year-round.

Residential & Commercial Pest Control Services

No matter whether you have a family home, rental house or business, pest control is more than an annoyance, it is a liability. To homeowners we provide discrete, comprehensive services that secures your family and property. This is child-safe and pet-safe treatment, and we will give you an update every bend of the way. Pest problems are a concern to businesses as they may affect your reputation and lead to non-compliance problems. Our services provide tailored pest control systems to deal with your:

Cafés and restaurants

Retail shops

Warehouses and factories

Offices and commercial buildings

Schools, childcare, and healthcare facilities

“ We work after-hours if needed and provide compliance documentation and regular monitoring for total peace of mind.”
