Our reputation as a caring Company has earned us an enviable reputation nationally and 100% of our customers would recommend Warnerbus too—an achievement that we are very proud of.

### So why are we different?

When you need a vehicle, we completely understand that this is specific to you and your passengers. No two vehicles are the same and expert care and attention is paramount during the initial quotation and design stages. This is why we offer a full consultation before a quotation. We meet you (often at your premises) and work closely with you to learn about your bespoke requirements before 'building' a quotation for your specific needs. We also offer all of our customers a tour of our workshop in order for them to see how we work and of course, the quality of our vehicle builds.

## Floor and seating plans

Warnerbus bespoke designs your vehicles to suit your individual requirements. Therefore, no two floor and seating plans are the same.

Type Approval legislation also affects the seating layout of your vehicles; hence, we will design your flooring specific to these regulations too.

Please contact us on 01582 965738 to discuss your individual requirements further.

## Type Approval - It's the Law

Vehicle type approval is now mandatory for all larger passenger carrying vehicles, such as minibuses (M2). This legislation took effect in October 2011 and all new M2 vehicles (10 seats or above, including driver) built in more than one stage, e.g. converted, **MUST** comply with the legislation in order to be registered.

M1 minibuses (minibuses with less than 10 seats, including the driver) must comply with the type approval requirements from April 2012.

*Driving Quality™*

### What does this legislation mean?

The legislation means that **ALL** minibus conversions should be approved under the European Whole (ECWVTA), National Small Series (NSSTA) or Individual Vehicle Approval (IVA) Scheme.

All converted vehicles, M1 and M2 must be tested by VOSA using one of the three approval routes (ECWVTA, NSSTA or IVA). Failure to do this will result in the vehicle being incorrectly registered.

## Type Approval

### Why do we need Type Approval?

Failure to produce an obligatory Type Approval Certificate will result in:

- \* No approval
- \* No registration
- \* No sale

### What is Warnerbus doing about this legislation?

VOSA testing is nothing new to us as we have been subjecting our vehicles to the Enhanced Special Vehicle Approval Tests for many years now.

Our conversions are of the highest quality and ALL of our minibuses are IVA tested, meaning that we have legally converted your vehicle and met stringent safety standards in all areas of your conversion.

### How will I know that you really have had my vehicle IVA tested?

Once your vehicle has passed its IVA test, we will provide the registering dealership with your IVA Approval Certificate (IAC). This will enable your vehicle to be registered legally. We will also provide you with a copy of this certificate within your Owner's Handbook.

**Ask your converter to provide you with a copy of your vehicle's IVA Certificate once it is registered.**

### Is there any way I can avoid having my minibus type approved?

As explained previously, type approval is mandatory. However some conversion companies have discovered a loophole in the law, meaning that they can avoid this very important legislation.

If your converter takes this route, your vehicle will be registered as a panel van, then converted afterwards, meaning that the stringent VOSA type approval tests are avoided. They will also invalidate the Manufacturer's base vehicle type approval, therefore possibly affecting or even invalidating your vehicle's warranty.

This back-door approach costs less but we would question the reasons behind avoiding such tests - and so should you.

**In conclusion, we want our customers to be 100% safe when travelling on UK roads.**
