3D Modelling and Animation

Combine our passion for video and our expertise in 3D design and the result is a truly immersive and exciting experience which will deliver your message in true style.

- Product 3D Modelling and Rendering
- Interactive training and on-boarding content
- Office and facilities tours
- Information and explanatory videos
- General 3D graphics and titles for all videos

We are currently researching and developing our Augmented Reality and Virtual Reality capabilities and will be offering these services final quarter 2017.

Sound Design

All of our videos will include professionally mixed and mastered sound as standard, but if all you need is a quick voiceover or soundtrack for your existing video, we can help too.

- Voiceovers - Male and Female
- Sound Design and SFX
- Bespoke Background Scoring
- Audio Restoration and Re-Editing

Other Services

We often provide these services as part of our video packages but if you need help with just a specific part of your project, we are happy to help you achieve your vision.

- Scriptwriting
- Storyboarding
- Copywriting
- Presenting / Hosting Videos
- Computer-based Creative Training
- Photography Training
- 3D Rendering
- Design Consulting Services
