

A series of concentric circles in various shades of purple and white, centered on the left side of the page, creating a ripple effect.

ACOUSTICS.
NOISE.
VIBRATION.

it's what we do...

Our Services

Building and Architectural Acoustics

Internal acoustic design through the detailed design stages for the built environment

Noise Surveys and Impact Assessments

Baseline noise surveys and operational noise monitoring for all types of development

Traffic Noise

Noise assessments for road, rail and aviation

Industrial Noise Pollution

Baseline and operational noise assessments/mitigation for planning and environmental permits

Refurbishments and Fitouts

Acoustic design for heritage/listed buildings and fitouts

Noise Assessments for Planning Applications

Noise and environmental impact assessments to support planning applications

Acoustic Testing and Compliance

Sound Testing for Building Control and BREEAM Compliance

Expert Witness

Planning appeals and public inquiries

Noise at Work

Noise assessments to comply with the Control of Noise at Work Regulations 2005 from the HSE

Construction Noise and Vibration

Noise assessments, management and monitoring during construction

Wildlife Noise and Tranquillity Assessments

Protecting the natural environment and AONBs

Recreational and Entertainment Noise

Internal acoustic design and external noise pollution

Building Services (M&E) Noise

Control of internal noise levels and vibration generated by mechanical plant and ventilation systems

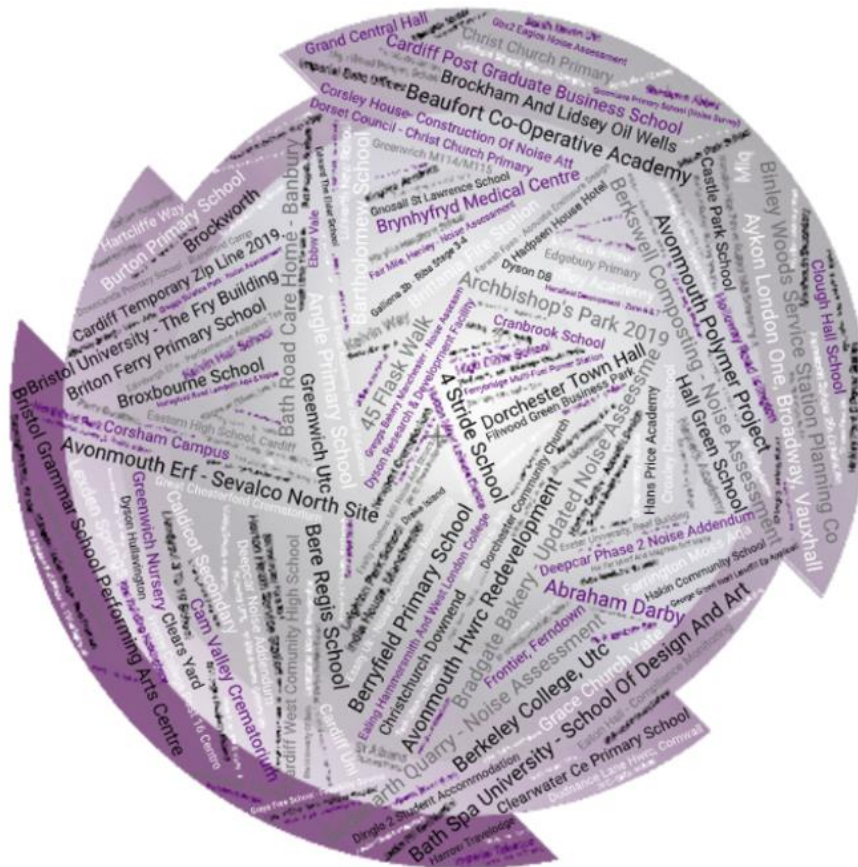

From conception, through planning, detailed design, construction, and completion, our acoustic consultancy input can be invaluable in getting the job done right.

No timesheets. No hidden fees. No delays. No jargon.
Just quality work.

With a solid consulting background in all facets of building and environmental acoustics, **ParkerJones Acoustics** have the experience to consult on any challenge that comes our way.

Whilst the company started in 2019, Chris (Director) has an extensive background in working on hundreds of projects as a lead acoustic consultant during his time at MACH Acoustics and SLR Consulting.
