Life is for living
at Foxburrow Grange

A WARM WELCOME

Foxburrow Grange provides residential, nursing and dementia care. This extends to people needing nursing care to those with dementia and a range of health conditions, including diabetes, epilepsy, stoma care, stroke, heart conditions, Parkinson's, Huntington's disease, Percutaneous Endoscopic Gastrostomy (PEG) and palliative care.

A SPECIAL COMMUNITY

We welcome local friends, residents' families, schools and voluntary organisations to drop in and say hello. We have an all-day café, free Wifi and daily newspapers for residents and visitors to enjoy. We are not just a vibrant focal meeting point either, we believe that pampering and relaxation is important too! Appointments can be made with one of our beauty therapists for a manicure, pedicure, head and back massage or even an aromatherapy treatment.

FOXBURROW GRANGE CARE HOME

RESIDENTIAL CARE - NURSING CARE

SPECIALISING IN
THE MONTESSORI METHOD
OF CAREGIVING FOR DEMENTIA

The Montessori aged care approach allows the person with dementia to do as much for themselves as possible. By engaging in meaningful roles, routines and activities in our Montessori themed environment, they learn through positive reinforcement and repetition. This approach supported by our staff and wellbeing coordinator is shown to improve their, quality of life and increased independence on their dementia journey

AROUND THE HOME

Foxburrow Grange comprises of four wings. On the ground floor are 32 bedrooms for residents with dementia, with a further 37 rooms on the first floor for people in need of nursing and/or dementia care. Every room has an en suite wet room, and all rooms come fully furnished. Residents are more than welcome to bring furniture to make it more homely. You can find more detailed information on our website at www.foxburrowgrange.org.uk.
