

# Live Sports Broadcast Services

## Multi-Camera Live Broadcast/Recording

3 Full HD broadcast camera setup providing wide and close angles to immerse the viewer in the sports action. Broadcast live on to big screens\* for the crowd to see. High quality recordings provided as standard.

\*big screens not supplied by Group Visual.

## Streaming

Broadcasting your event online expands your audience to millions of people worldwide. We work with all major streaming platforms such as YouTube, Facebook Live, Twitch and more. PayPerView options are also available at a per ticket cost meaning you will always make a profit even if you only sell 2 tickets.

HOME FIXTURE

SATURDAY 29TH SEPTEMBER, 3PM

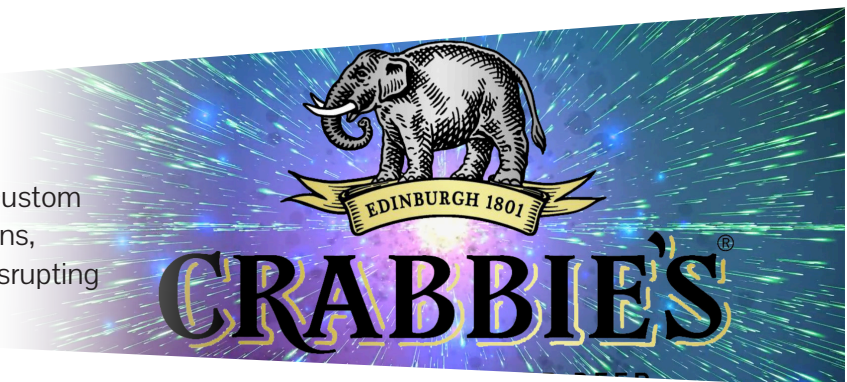

POOLE TOWN

## Custom Graphics

Fully customisable on screen graphics displaying live scores, match details and more. We work alongside our clients to design tailored graphics that integrate their branding and colour schemes into the entire visual experience.

## Advertising Integration

Enhance sponsorship options with custom adverts either as full screen transitions, banner ads or animations without disrupting the on-screen content.

## Fan Cam

The perfect interlude between sports action. Our fan cams include the classic 'kiss-cam' as well as other fan favourites such as the 'dance-cam' and 'down-it-cam'. We are always open to new 'fancam' ideas and can integrate client branding into each one.

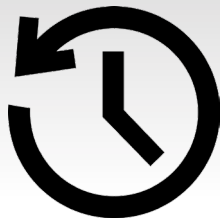

### Instant Replay

What distinguishes amateur and professional sports broadcasters? The ability to instantly watch that perfect goal or disgraceful foul back in slow motion and from different angles.

### Secondary Screens

We will provide a second output displaying purely match graphics. These can be customised for each event. Examples include: full screen scoreboard, advertising boards, social media wall (twitter hashtag posts etc.) and more.

### Event Playback

Invested in giant screens for the whole day/weekend/week? We can utilise these even after the event has finished by playing back match replays to keep your audience entertained.

### Social Media Packages

We are able to provide video packages of your entire event almost immediately after it has finished to publish online or on social media. Highlights packages are also available fully edited within the same timeframe. These packages can also be played out live between the action due to our quick turnaround editing.

### Pitchside Coverage

Roaming camera crews are able to capture the action surrounding your main event. Whether it be alternative matches and sports for big festivals or interviews and crowd reactions for smaller events, these extra packages can be played live to your audience to provide wider coverage of your entire event.

Every event is different and we would love to hear your ideas as well as our own. Please contact us directly for a personalised quote today.
