

CREATIVE GIFTS, HOME DECOR & PRODUCTS

WHO WE ARE

We're just a bunch of very different people... different backgrounds, different education, different careers / jobs, different hobbies and interests, and very, very different personalities....

But we have a few things in common:

- ★ we're all about personalized and tailor - made products - just have a look at our portfolio and you'll notice - no copying, no plagiarism
- ★ we're creative - our team can spend hours intensively thinking about new concepts, ideas, designs.... always focused on being unique and original
- ★ we love surprises and surprising our customers (positively of course)
- ★ we are super - friendly - not because that's how the customer service works and we just need to be friendly, it's just the way we are - easy going, funny and very social
- ★ we cannot live without a morning coffee cup

**Last but not least, we love challenging our limits.
Let us prove it!**
