HEAVY HAULAGE

UK & European Transport Specialists

# ABOUT POTTERIES HEAVY HAULAGE

Potteries Heavy Haulage (PHH) is a family owned business based in the heart of Stoke-on-Trent. With years of experience in the industry, we are proud to call ourselves experts in the movement of all types of cargo within the UK & Europe.

At PHH we specialise in providing expert transportation solutions for the safe delivery of cargo across many different industry sectors.

Using our dedicated team of experts who assess each transport requirement on an individual basis, we are able to provide our customers with the transport solution/vehicle for their cargo.

You can rest assured that delivery of your cargo will be completed safely and on-time by our dedicated team of drivers.

Our core values:

CUSTOMER FOCUS

DEDICATED PROJECT MANAGEMENT

INDUSTRY EXPERTISE

# INTERNATIONAL COMMERCIAL TERMS (TRANSPORT)

## EXW – Ex Works

Term used to describe delivery of cargo to a customer at their place of business ( i.e. office, warehouse, factory).

## FCA – Free Carrier

Seller is responsible for delivery of goods to buyer’s nominated premises.

## CPT – Carriage to be Paid

Seller bears the costs for transporting the goods to the nominated place as requested by the Buyer

## CIP – Carriage & Insurance Paid

Seller is to pay all costs associated with transport and insurance cover for the goods whilst they are in transit, to Buyer’s nominated delivery point.

## DDP – Delivered Duty Paid

Again, this term can be used for any method of transport. The seller is responsible for delivery of the goods to the nominated point of delivery by the Buyer and up to the point of unloading, the Seller must also pay all costs associated with Duties and Taxes relevant for clearance of goods.

## DAT – Delivered at Terminal

As per the above, the Seller must pay all costs up to the nominated point of delivery, which may also include Taxes and Duties to enable the goods to clear customs. In addition, the Seller would also be responsible for the unloading of the goods at the point of delivery.

# TRANSPORT IN 3 EASY STEPS

From your initial enquiry, our knowledgeable team will provide a comprehensive quotation, offering you the most cost-effective transport solution. You will be provided with outline details of the method, timescales and any other specific requirements, giving you the reassurance and confidence to choose Potteries Heavy Haulage as your business partner.

From the award of your contract, our professional team will discuss in detail all aspects of the transport method to be undertaken, carry out any required route and site surveys, make the necessary permit applications and any other arrangements required to ensure a seamless journey throughout.

Throughout the transport programme, our expert team will ensure you are fully updated on progress of the vehicles. You can sit back and relax, knowing your cargo is being handled with the utmost care by Potteries Heavy Haulage.

# OUR SECTORS

## POWER

Our experienced staff are well-versed in the safe transportation of equipment such as Transformers, Generators, Rotors and other oversized/heavy equipment.

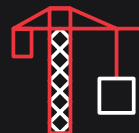

## PETROCHEMICAL

Our understanding and knowledge of PAUs, Skid Packages, Pressure Vessels, Air Separation Units and associated equipment is comprehensive.

## WIND & ENERGY

Our team are able to expertly hand the transportation of Nacelles, Tower Sections, Base Rings, Blades and any other wind components, utilising our specialist fleet of extending and multi-axle trailers.

## CONSTRUCTION

We can offer cost-effective methods for the safe transportation of Excavators, Scrap Handlers, Cranes and other tracked or wheeled machinery to your required destination.

# OUR SERVICES

## UK & EUROPEAN TRANSPORTATION

At Potteries Heavy Haulage Ltd, we operate a diverse fleet of trailers enabling us to adapt to all your transportation needs within the UK and throughout Europe.

## PERMIT APPLICATIONS

At Potteries Heavy Haulage, we can arrange all your permit needs, from standard C&U to Special Order and VRI permits from Highways England.

## PROJECT MANAGEMENT

At Potteries Heavy Haulage Ltd, we are able to offer a complete door-to-door service, including loading, transportation, offloading, custom clearance formalities and shipping if required.

## ROUTE & SITE SURVEYS

Our team of industry experts can complete both route and site surveys prior to movement being undertaken to establish any remedial works required to accommodate movement of your cargo.

## FEASIBILITY STUDIES

To ensure safe delivery of your project cargo, we can arrange a feasibility study, giving you peace of mind that your cargo can be delivered to its destination safely.

## STORAGE FACILITY

We can offer our outdoor storage facility with 24hr CCTV security and have forklifts on-site ranging from 1t to 25t lift capacity.

# OUR FLEET TRACTORS & TRAILERS

**Our vehicle and trailer fleet are instantly recognisable on the road and maintained in-house to the highest of standards.**

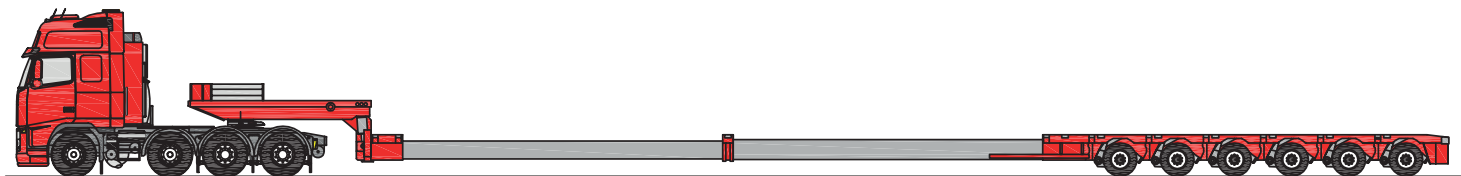

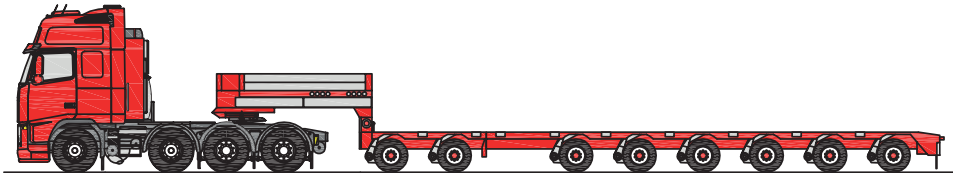

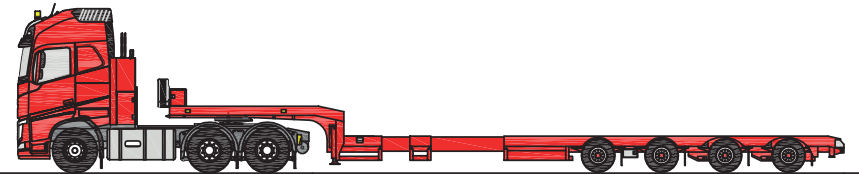

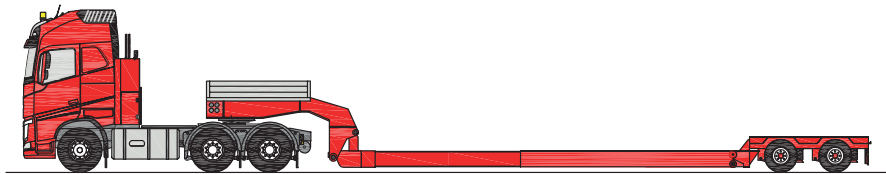

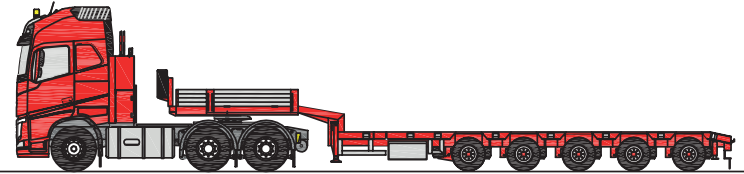

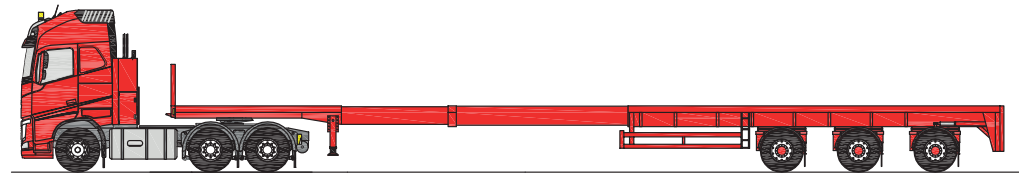

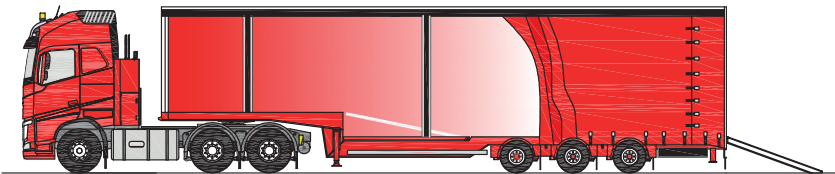

All vehicles meet the latest emission regulations to ensure we can be as friendly to the environment as possible, and in addition are also equipped with the latest technology, ensuring our drivers are able to work and rest in comfort.

Through constant investment we have built a varied and unique trailer fleet capable of carrying a diverse range of loads throughout the UK and Europe.

At Potteries we work closely with various trailer manufacturers to design and build trailers to the latest specification, incorporating unique features to ensure your cargo can be moved safely and efficiently.

Vehicles ranging between 44t – 250t GTW in capacity.

A small section of our specialised fleet of heavy haulage trailers with carrying capacity up to 120t.

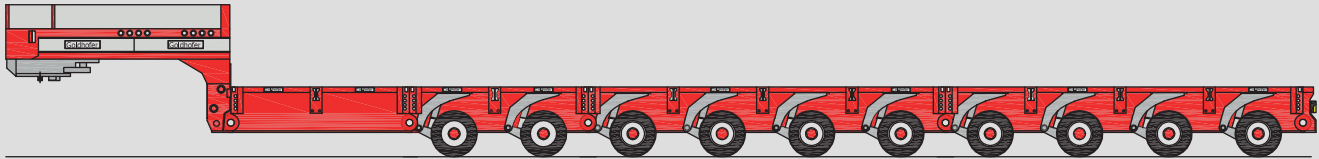

# MODULAR EQUIPMENT

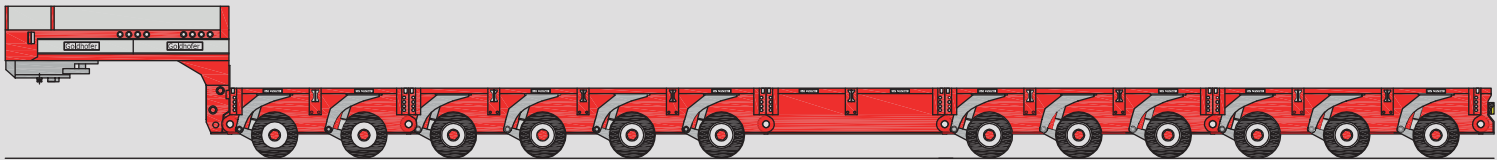

As part of our continued trailer fleet expansion, we have invested in specialised modular trailer equipment capable of carrying loads in excess of 200 tonnes. This gives us the ability to build high specification modular equipment in a multitude of configurations to safely move all types of heavy and oversize cargo that are not suitable for standard conventional trailers.

Our modular fleet consists of the following:

- Various Modular Axle Bogies
- Addrive Modules
- 120t Vessel Decks
- 120t Plant Decks
- 200t Wafer Decks
- 100t Bolsters
- Spacer Decks
- Swan Necks
- Drawbars

Neck 10

Neck 6-Spacer-6

16 Row Drawbar

Neck 4-Bed-7

7-Bed-7 Drawbar
