

Marketing Statement

Enviro-Clean (Scotland) Ltd is a company with 17 years of experience in keeping Scotland's water infrastructure running. Enviro-Clean (Scotland) Ltd will provide a professional service and is known and respected for delivering cutting edge technology and good old fashioned hard graft to support our customers' requirements.

Enviro-Clean (Scotland) Ltd offers a service range from choke clearing, major de-silting programmes, sewage works cleaning, Tipper Hire, CCTV Surveys and the installation and repair of drainage systems and we cover Scotland and Northern England. Our fleet is operated by trained personnel who are very experienced in the waste water industry. Amongst others, our fleet consists of the following specialist vehicles:

- 4 Water Recycler HP Jetting Units
- 8 Jet-Vac's
- 3 Disab LN200 HT
- 12 waste water artic tankers
- 9 waste water rigid tankers
- 8 fresh water artic tankers
- 6 fresh water rigid tankers
- 4 CCTV Units (500 metres and steerable)
- 1 Ex CCTV Unit
- 1 'Trac-Vac'® off road unit
- 2 Dumper mounted Remote Reels
- 26 x 20 ton tippers

As detailed above, our experienced management and staff are supported by the most diverse fleet of specialist vehicles and equipment in the UK. We also offer a unique range of mechanical plant and transport, owned and operated by us. The fleet includes low loaders and transporters, a wide range of mechanical excavators including a 23 metre Long Reach Hitachi 35t excavator, curtain side trailer units, etc.

Our customers range from the domestic homeowner in need of a simple blockage to be cleared or a septic tank to be emptied, through to water & waste water providers, international utility companies, petro-chemical companies, holiday & caravan parks, golf courses, road & transportation, etc., who have a need to utilise items from our diverse fleet. What are the client benefits?

Our customers benefit from a company whose management knowledge, fleet resources and ability to respond are simply unmatched. Having a company that is able to respond with all equipment resourced internally allows Enviro-Clean (Scotland) Ltd to deliver a fully compliant service to our customers and reaction times to meet the most demanding of projects.

Our manned switchboard operates 24/7 to allow us to react quickly to every customers' individual needs. We can quickly mobilise to your site to begin work to tackle the problem, whatever that may be and work to reduce the environmental or process based impact to your systems.

The main benefit of dealing with Enviro-Clean (Scotland) Ltd, is that you will be dealing with a company who cares, one who is compliant and one that can actually deliver what our marketing spiel says we can. Quite simply, we deliver on our promises, not aim to achieve them.
