

The Care Certificate

We also provide training for the Care Certificate. The Care Certificate is now a mandatory requirement for those new to health and social care environments and those who are already working in these settings but do not have any formal qualifications.

Registered Nurses Revalidation

We will be providing revalidation service for nurses who are registered with the Nursing and Midwifery Council at the beginning of October 2015. Registered nurses are required to fulfil the revalidation requirements in line with the new NMC compliance requirements.

We also provide a range of CPD accredited and CQC compliant E-learning training in the following areas:

- ⇒ Health and Social Care
- ⇒ Mandatory Training
- ⇒ Clinical Skills for Nurses
- ⇒ Clinical Skills for Healthcare Support Workers
- ⇒ Mental Health
- ⇒ Learning Disabilities
- ⇒ Employment and Work Skills
- ⇒ Leadership and Management
- ⇒ Food and Hospitality
- ⇒ Customer Care

Online Training Courses:

- **Mandatory Training Coursers**
- **Health and Social Care Courses**
- **The Care Certificate**
- **Employment Framework & Management Courses**
- **CPD Healthcare Training Package courses for learners**
- **Free online courses**

E-Learning for your organisation:

Our platform is used by many organisations including NHS Trusts, County Councils, recruitment agencies and care homes among others. All our online courses are CPD accredited and compliant with CQC requirements. Our E-learning platform enables individuals and employers to track their progress. Employers will have an administrator account whereby an authorised individual can set up new trainees, allocate courses, track their progress and download certificates for compliance and audit requirements. Alternatively, we can manage and track candidate progress for you. The Blended Learning option is one of our most popular packages and is used by the majority of clients.

- Choose from over 100 online health and social care training courses
- Accredited training resources that meet the established care standards
- Online courses are compliant with health and social care inspectorate
- Courses meet learning skills agency and legal requirements
- Cost effective training that is structured to your organisational needs
- Highly interactive training materials that are easily accessible
