## Full Office Refurbishment Project

Dimension wanted to utilise their current buildings space and create an office area with an industrial look on the first floor. After meeting with aci, we quickly identified the needs of the client and the scope of the project.

Once we had confirmed all of the costs we began our enabling works ready for the fit out.

The brief was to fit out the 1770 square foot area to provide an open plan office along with a meeting room, directors office, kitchen and toilets.

The timescale of this project was nine weeks which was easily achieved to the delight of the client.

## Full Office Refurbishment Project

- Partition Walls (Glazed and Solid)
- Doors and Glass Manifestation
- Decoration Works
- Office Furniture
- New Central Heating System
- Kitchen
- Metal Balustrade
- Deep clean and sealing of the concrete floor
- Vinyl floor coverings
- Bespoke electrical works and containment
